FOREWORD

The Westchester County Department of Health (WCDH) plays a leading role in promoting health, preventing disease, and prolonging meaningful life for Westchester County residents. The WCDH's ongoing mission involves monitoring and controlling the spread of diseases, regulating air and water quality, enforcing state and local sanitary codes, promoting and endorsing local public health activities, and ensuring the availability of community health services.

To comply with New York State Public Health Law, WCDH has collaborated with local hospitals and other community health partners to complete a *Community Health Assessment (CHA) Survey*, which describes the current health status of Westchester County residents, identifies existing gaps and health care barriers, assesses the availability and accessibility of health care services, and specifies public health priorities in the county. In addition, a *Community Health Improvement Plan (CHIP)* has been crafted to lay out the specific objectives, goals, and actions of the Health Department which address the public health priorities identified in the Community Health Assessment.

Supplementing the *Westchester County Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP), 2019-2021*, six additional data reports are compiled to provide detailed data addressing specific areas relevant to the county's public health. These reports are:

- Westchester County Community Health Assessment Supplemental Data Report 1. Population (2013-2017 ACS)
- Westchester County Community Health Assessment Supplemental Data Report 2. Vital Statistics (2011-2017)
- Westchester County Community Health Assessment Supplemental Data Report 3. Communicable Diseases (2013-2018)
- Westchester County Community Health Assessment Supplemental Data Report 4. Cancer (2012-2016)
- Westchester County Community Health Assessment Supplemental Data Report 5. Emergency Room Visits (2012-2016)
- Westchester County Community Health Assessment Supplemental Data Report 6. Hospitalizations (2012-2016)

Using data from the 2007-2017 American Community Surveys (ACS) conducted by the U.S. Bureau of Census, this report presents important demographic information on Westchester County such as: age, sex, race/ethnicity, education, family structure, immigration, language spoken at home, labor force participation and unemployment, household income, poverty, housing, and commuting.

Data are presented with three groups of five year averages of the ACS data to assure continuity and accuracy of the estimates. Information is presented at the municipality and zip code levels, whenever data are available.

HIGHLIGHTS

According to the 2013-2017 American Community Survey (ACS), Westchester County's total population in 2017 was 975,321 people, of which 48.4% were male and 51.6 % were female.

From 2013-2017, 65.4% of Westchester County residents identified as White, 14.6% were Black, 5.9% were Asian or Pacific Islander, 11.1% were of some other race and 24.0% Hispanic/Latino origin (of any race).

The percentage of the Hispanic population was 24.0%.

The majority of the Westchester County population, over the age of 25, received a high school diploma/GED (87.6%) and almost half (47.7%) attained, at least, a bachelor's degree.

Educational attainment varied by race. Fifty-four (54) percent of Whites, 30.5% of Blacks and 70% of Asians attained a bachelor's degree or higher. Twenty-two (22) percent of residents, of any race, who identified as Hispanic or Latino completed a bachelor's degree or higher.

Single-parent homes with children under 18 years (as a percentage of all family households with related children) made up 27.3% of Westchester County households.

Over a quarter (25.4%) of Westchester County residents were foreign born. For the population of five (5) years and older, 33.3% spoke a language other than English at home.

The overall unemployment rate for Westchester County from 2013-2017 was 6.5%. Blacks were about twice as likely to be unemployed (9.9%) than Whites (5.5%).

The median household income in Westchester County was estimated at \$89,968 (adjusted for inflation to 2017 dollars).

Overall, 9.4% of the county's total population was living in poverty from 2013-2017. Sixteen (16) percent of Blacks compared to 6.7% of Whites reported living in poverty, whereas 17.1% of residents of Hispanic/Latino origin (of any race) reported living in poverty.

The percentage of the population living in overcrowded housing was 4.2%.

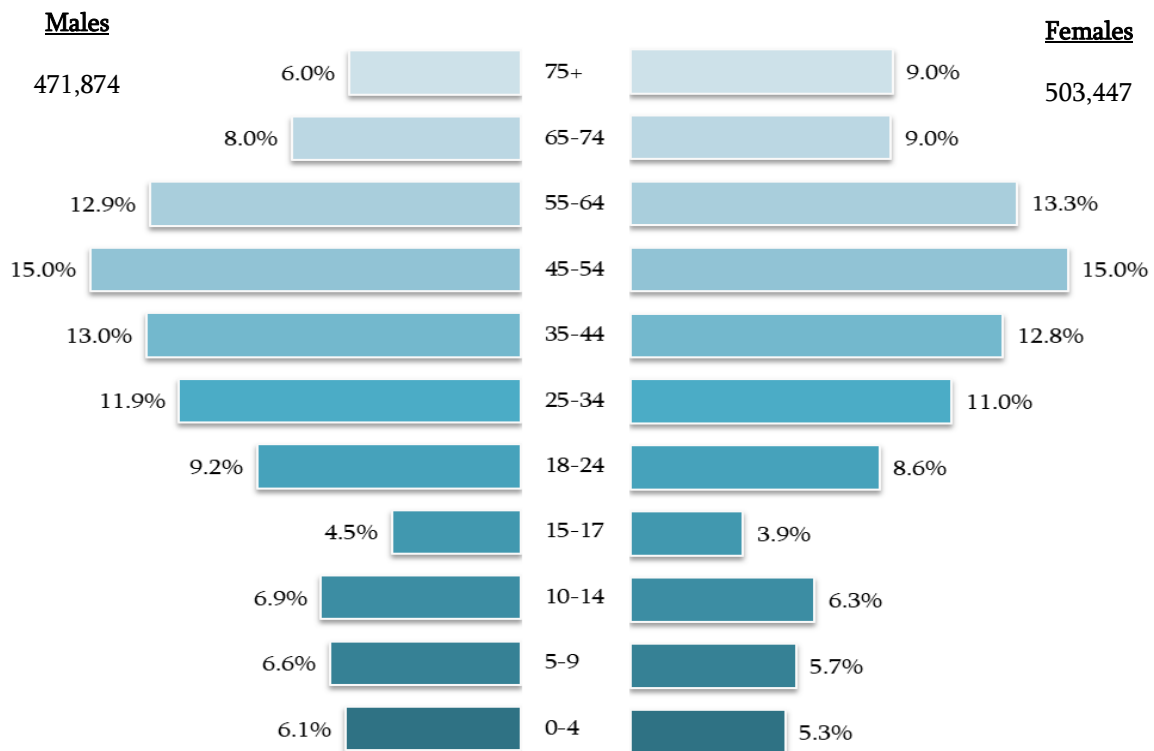

Rather than driving alone, 41.1% of the population chose an alternative mode of transportation for the commute to work, including carpooling, public transportation, walking, bicycling, or telecommuting.

2013-2017 AMERICAN COMMUNITY SURVEY

According to the 2013-2017 ACS,¹ the Westchester County population was estimated as 975,321. The sex distribution (Figure 1) showed 471,874 males (48.4%) and 503,447 females (51.6%). The ratio of males to females was 0.94 for the county. With respect to health regions, the highest sex ratios were in the Northwest (0.99) and lowest in the Southwest (0.90).

The median age for Westchester County was 40.6 years (38.8 years for males and 42.2 years for females)². There were also median age differences among races. Overall, whites had the highest median age (44.8 years) compared to the median age among blacks (37.4 years) and the median age for other races (31.4). The median age for Hispanics in Westchester County was 31.6 years.

Educational Attainment

The majority (87.6%) of Westchester County residents, age 25 and older, completed a high school education, 23.9% had a bachelor's degree and 23.8% held a graduate or professional degree. Educational attainment varied between males and females (Figure 10).

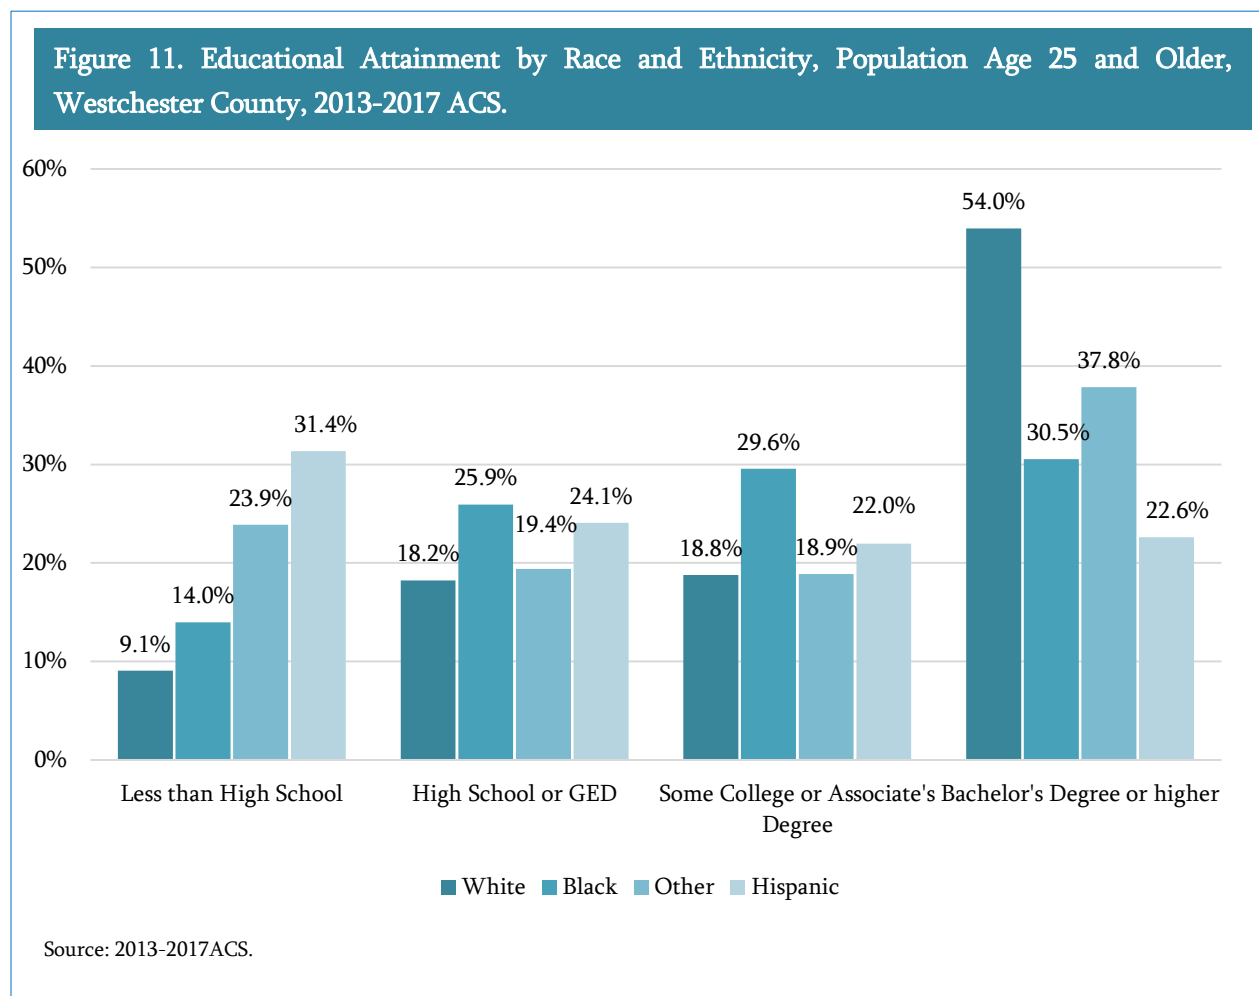

The Southwest region of Westchester County had the most residents, 25 years and older, with less than high school education (17.5%) compared to the Northeast which had 6.0%. The Northeast region had the most residents with at least a college degree (29.6%) compared to the Southwest, which had the least percentage with a college degree (18.5%). Graduate and professional degree attainment was highest in the West Central region (33.0%) and lowest in the Southwest (14.2%). The overall percentage of people with less than high school education was 12.6%, between 2013-2017.

Figure 10. Educational Attainment by Sex, Population Age 25 and Older, Westchester County, 2013-2017 ACS.

Source: 2013-2017ACS.

Educational attainment also varied among racial and ethnic categories⁴ (Figure 11).

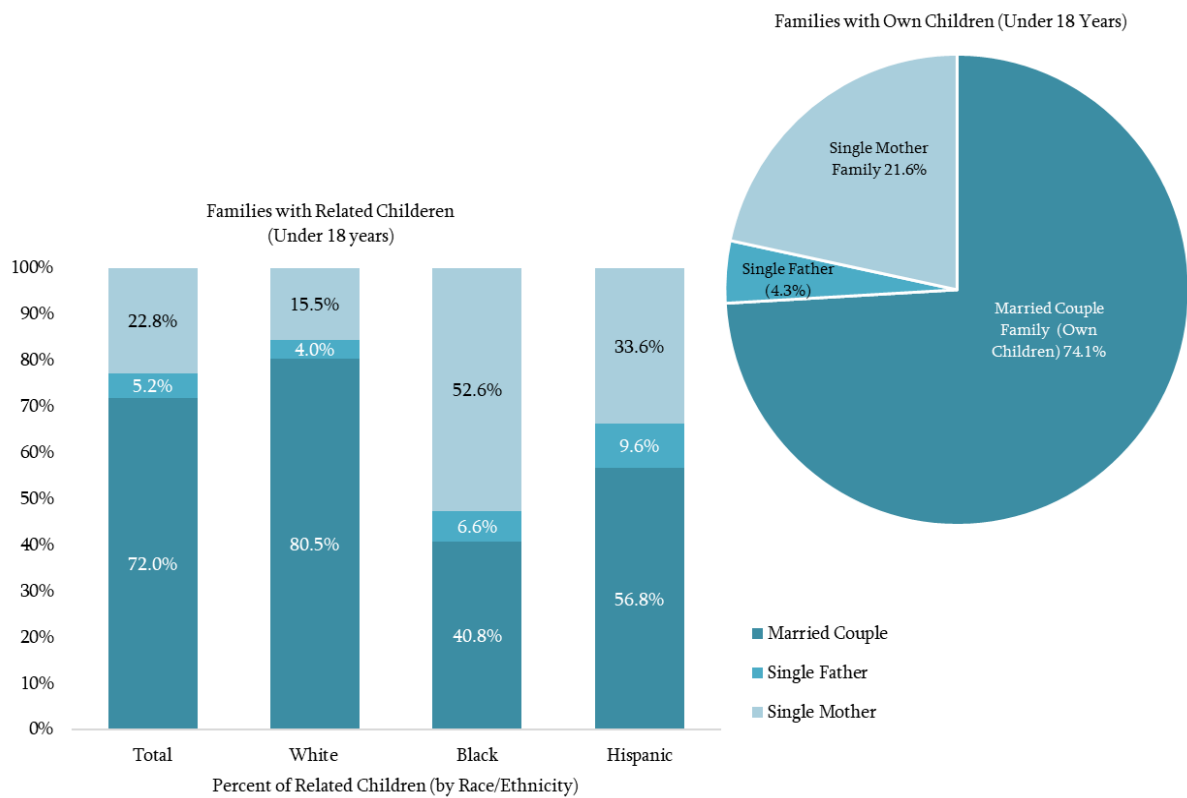

⁴ Other in race categories includes Native Americans, Asians & Pacific Islanders, Two or More Races and Some Other Race.

Family Structure

There were 345,885 households in Westchester County. Household was defined as at least two related people living together. Nearly 70.0% were family households. Among them, approximately half had children under 18 years.

Almost three-fourths of families with related children under 18 years were married-couple families (Figure 13). Over 19.6% were single-mother families and 6.6% were single-father families.

Figure 13. Distribution of Family Structure for Families with Own and Related Children Under 18 Years of Age, Westchester County, 2013-2017 ACS.

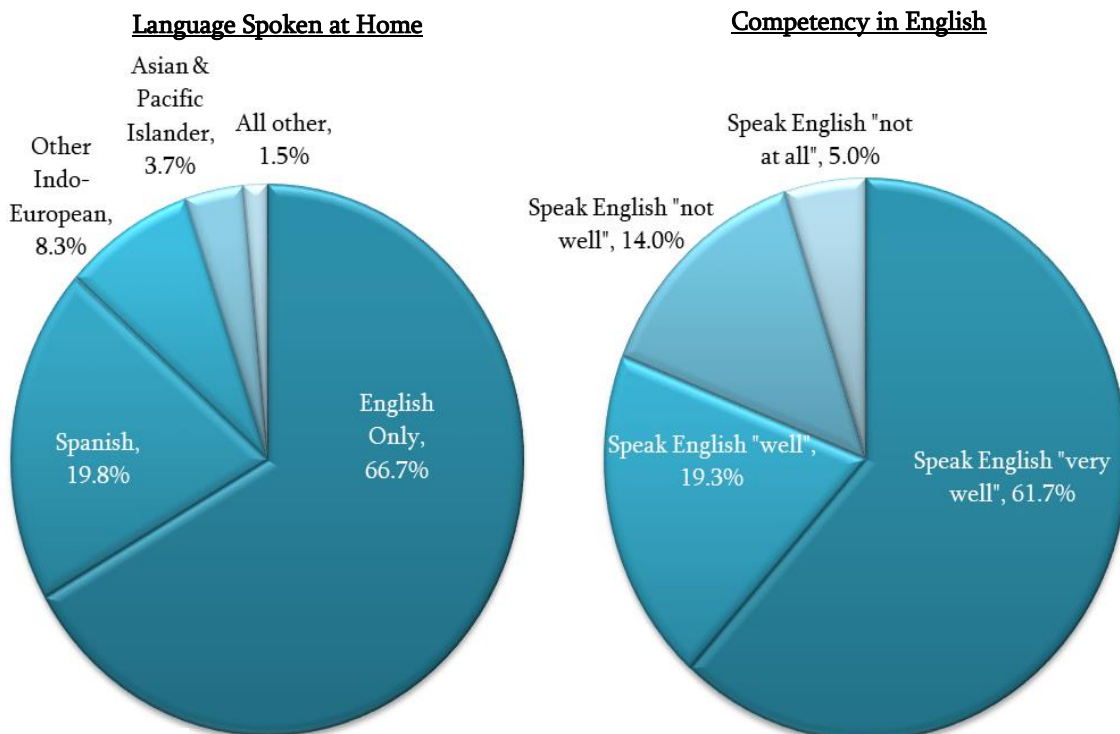

Source: 2013-2017ACS.

Immigration and Language Spoken at Home

Almost three quarter (74.6%) of county residents were born in the United States and 25.4% were foreign-born. The foreign-born population in Westchester remains significantly higher than the national average of 14.9%. Among the foreign-born population, almost half (48.6%) were non-citizens. Among those five years and older, 33.3% spoke a language other than English at home (Figure 14).

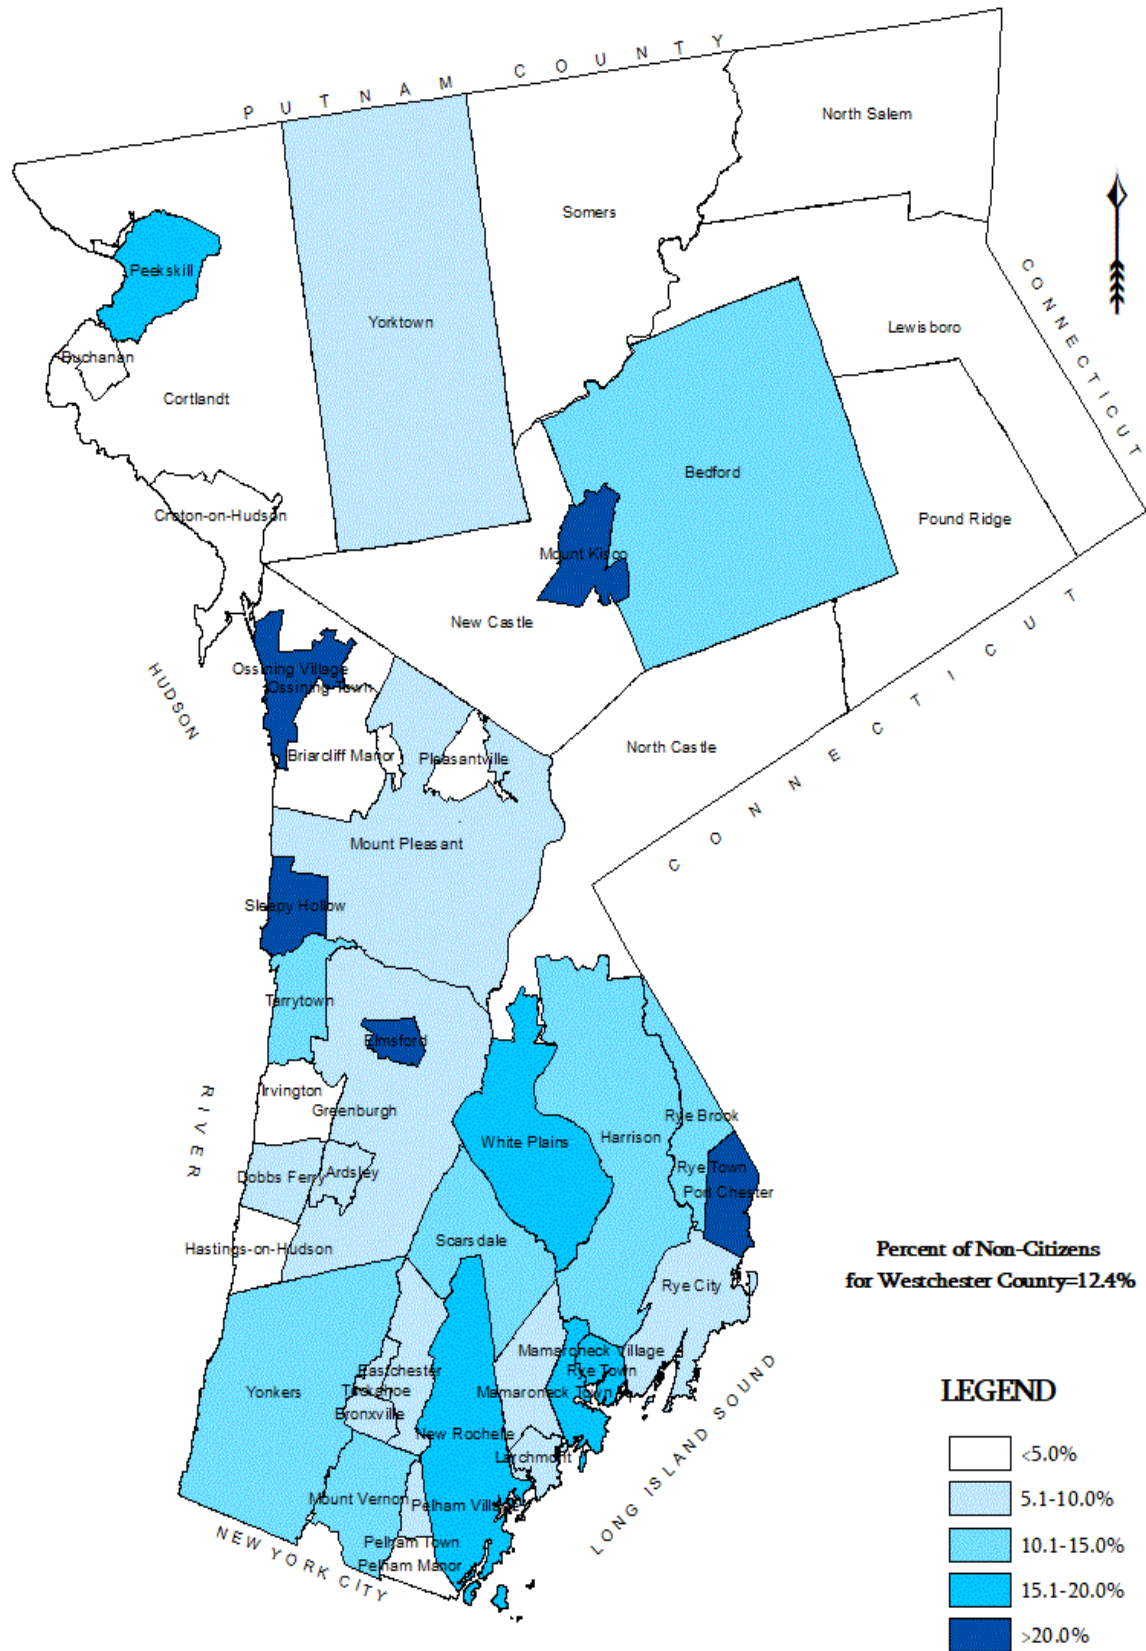

Figure 14. Language Spoken At Home and Competency in English, Population Age 5 and Older, Westchester County, 2013-2017 ACS.

Source: 2013-2017ACS.

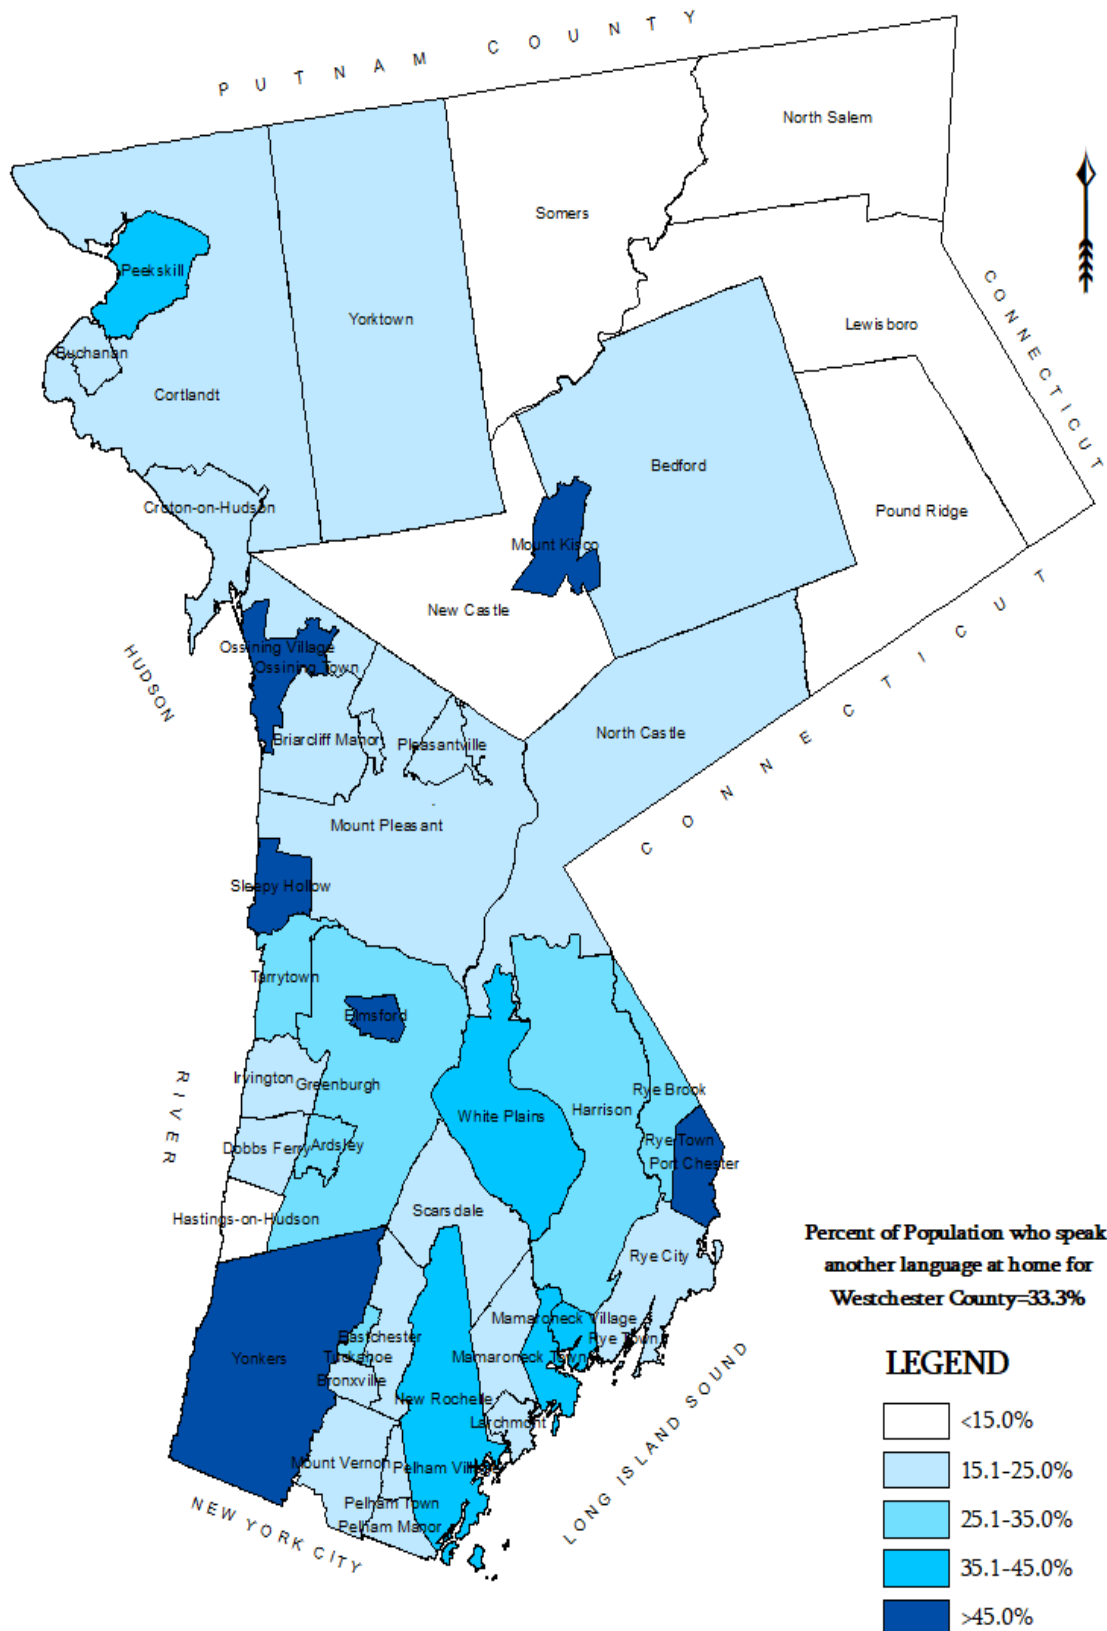

Among those who spoke a non-English language at home, 59.5% spoke Spanish (182,282), 24.9% spoke, another Indo-European language (76,129), 11.1% spoke an Asian or Pacific Island language (34,056), and 4.6% spoke other types of language (13,931). With respect to health regions, the highest percentage of residents who spoke a language other than English at home was in the Southwest (43.5%) compared to Northeast (17.5%) which had the lowest percentage in the county.

Figure 15. Percent Distribution of Population who are Non-Citizens, by Municipality, Westchester County, 2013-2017 ACS.

Source: 2013-2017ACS.

Figure 16. Percentage of Total Population who Speak Another Language Other Than English at Home, by Municipality, Westchester County, 2013-2017 ACS.

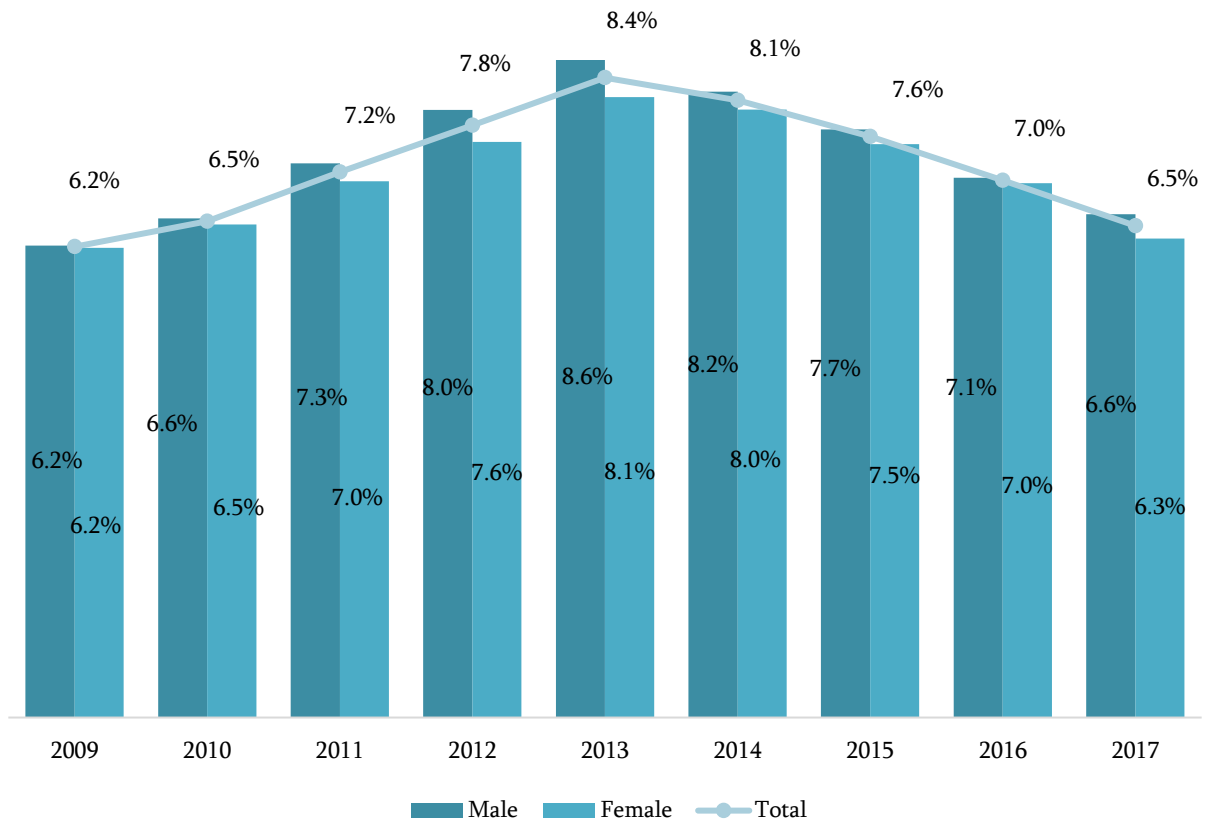

Source: 2013-2017ACS.

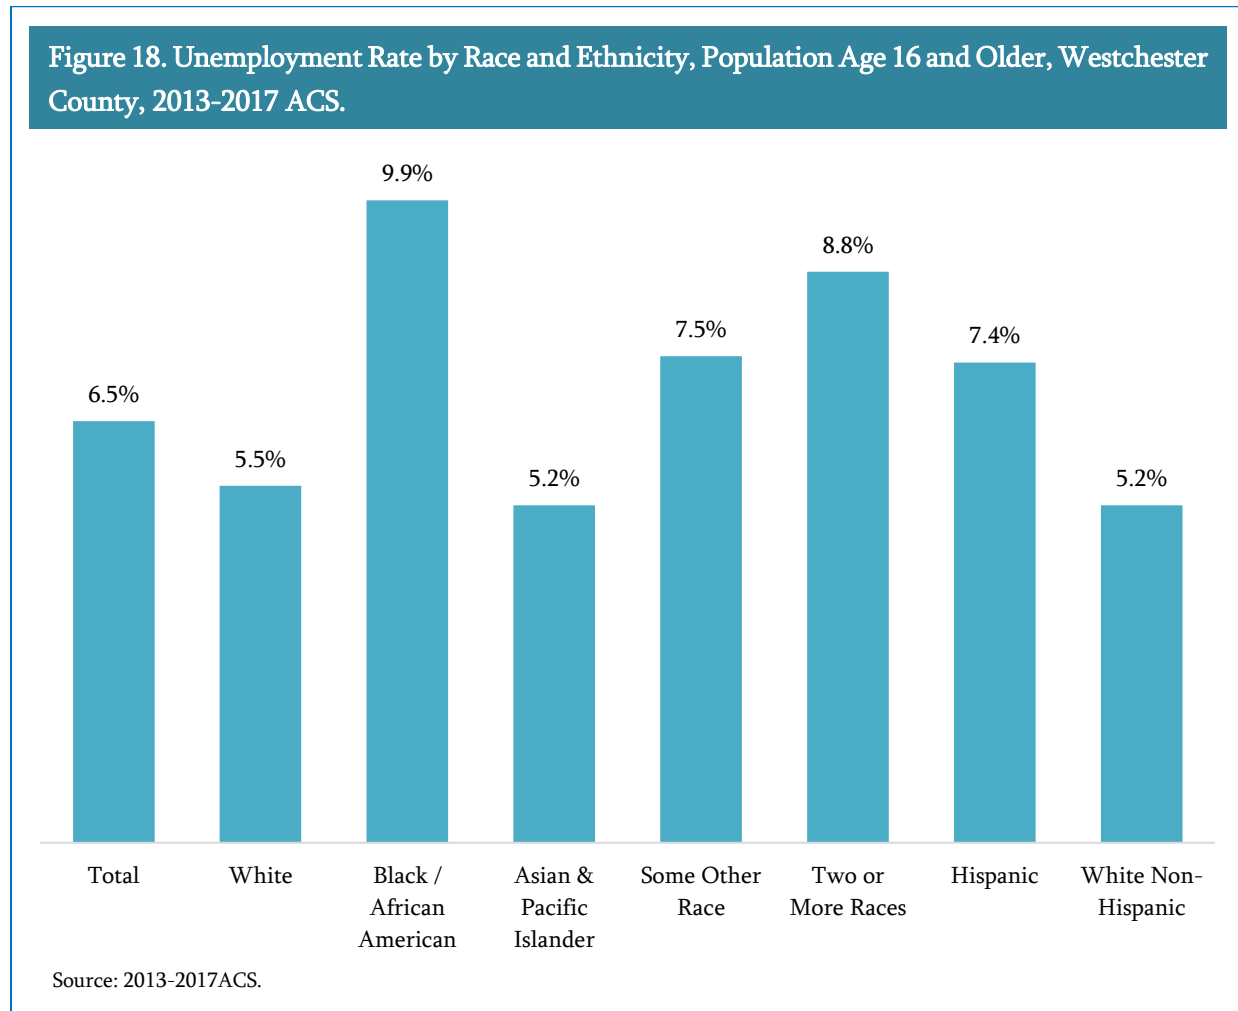

Labor Force Participation and Unemployment

Seventy percent of Westchester County residents, who were at least 16 years of age, were in the civilian labor force (non-military employment). The overall unemployment rate was 6.5% among the civilian labor force population, 6.6% and 6.3% for males and females, respectively (Figure 17). For males, the lowest unemployment rates occur in the 35-44 age group and for females, 65-69 years.

Figure 17. Unemployment Rate by Sex, Population Age 16 and Older, Westchester County, 2009-2017 ACS

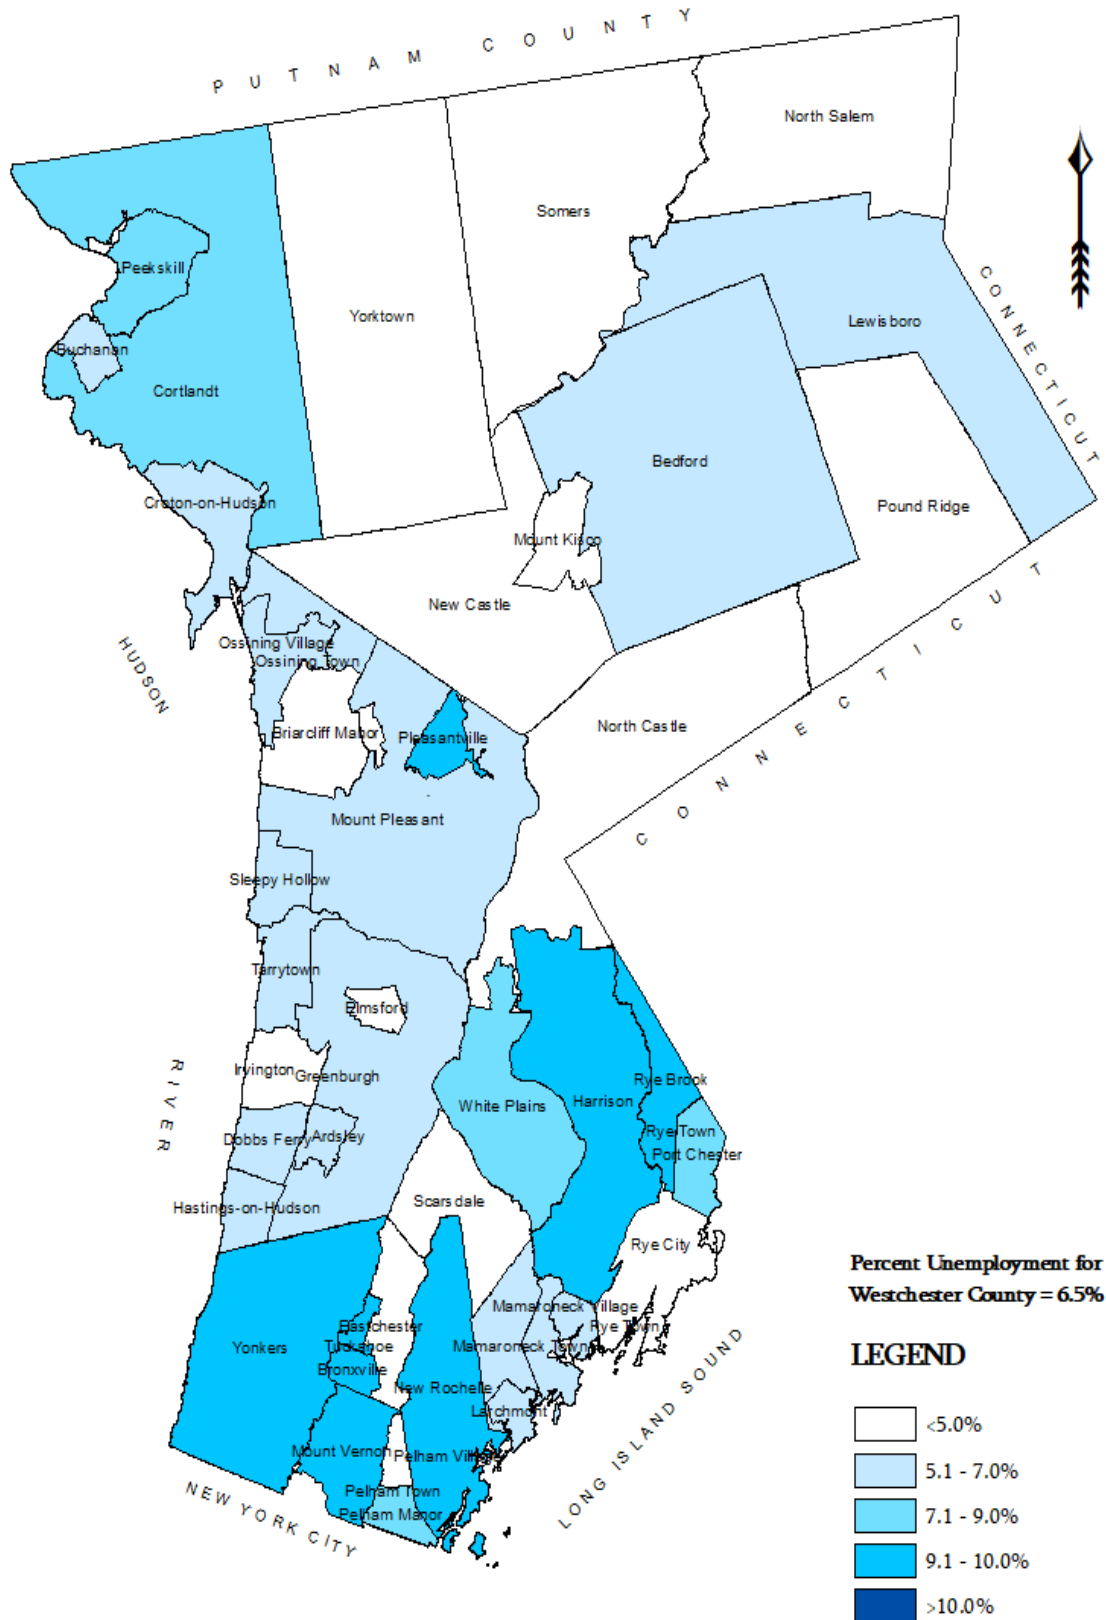

The unemployment rate varied by race and ethnicity (Figure 18).

Unemployment was lowest in the Northeast (4.5%) and highest in the Southwest (8.0%). Eleven municipalities had a higher unemployment rate than the county average: Harrison, Yonkers, Rye Brook, New Rochelle, Bronxville, Tuckahoe, Pelham Manor, White Plains, Peekskill, Pleasantville and Mount Vernon. No municipality had an unemployment rate of greater than 10.0% (Figure 19).

Figure 19. Unemployment Rate by Municipality, Population Age 16 and Older, Westchester County, 2013-2017 ACS.

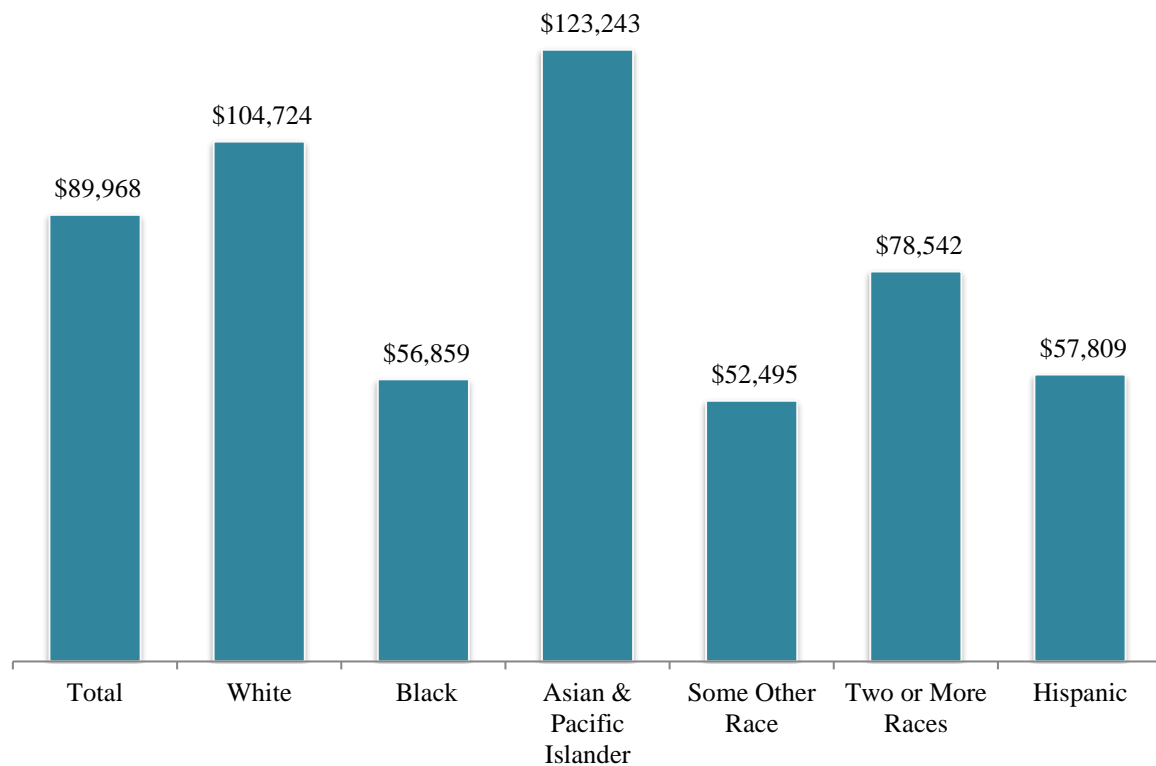

Source: 2013-2017ACS.

Household Income and Poverty

The median household income in Westchester County in 2013-2017 was \$89,968.⁵ The median household income differed by race and ethnicity (Figure 20).

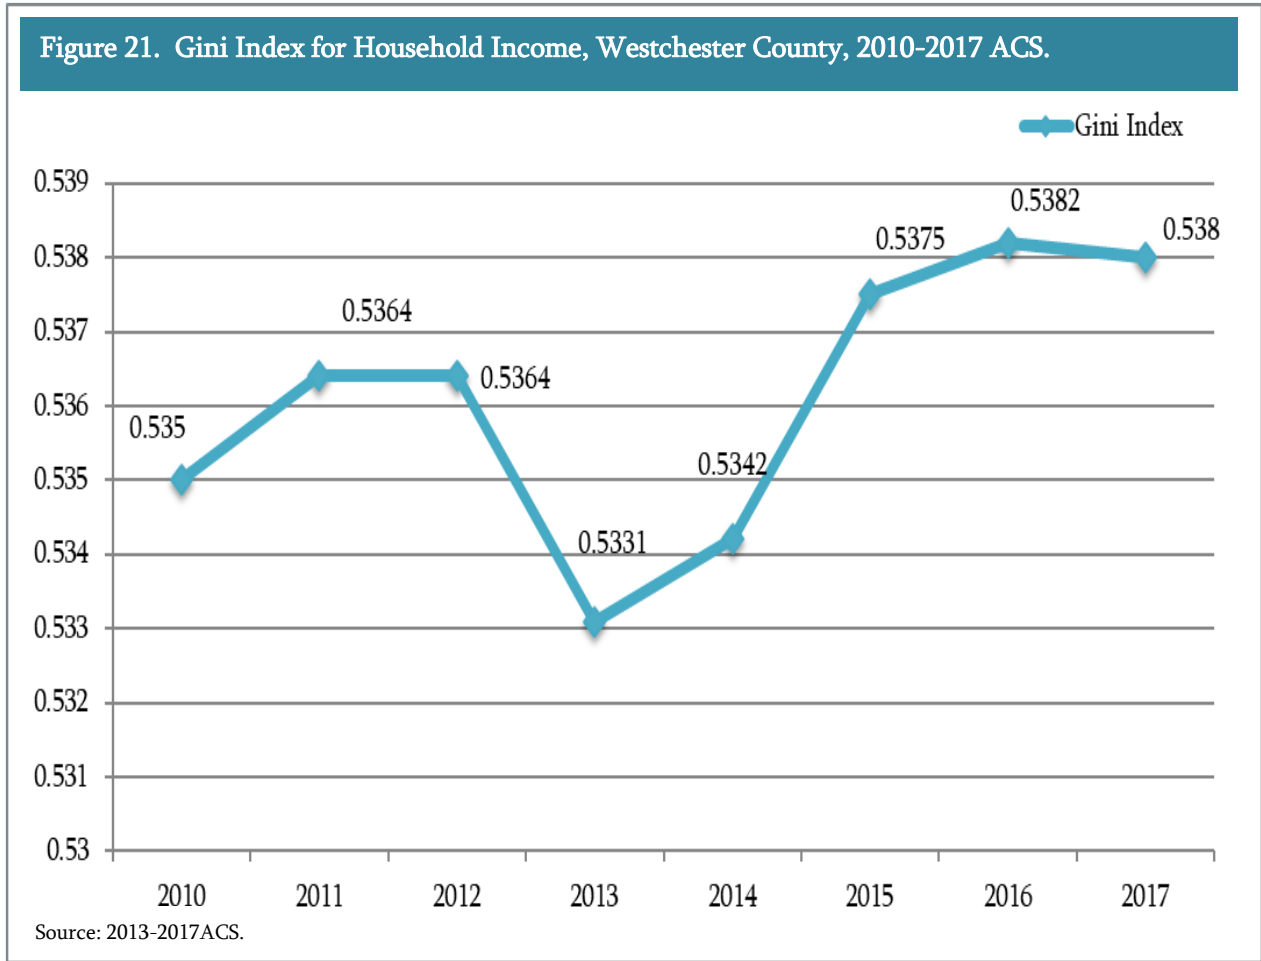

Figure 20. Median Household Income by Race/Ethnicity, Westchester County, 2013-2017 ACS.

Source: 2013-2017ACS.

⁵ Adjusted for inflation in 2017 dollars.

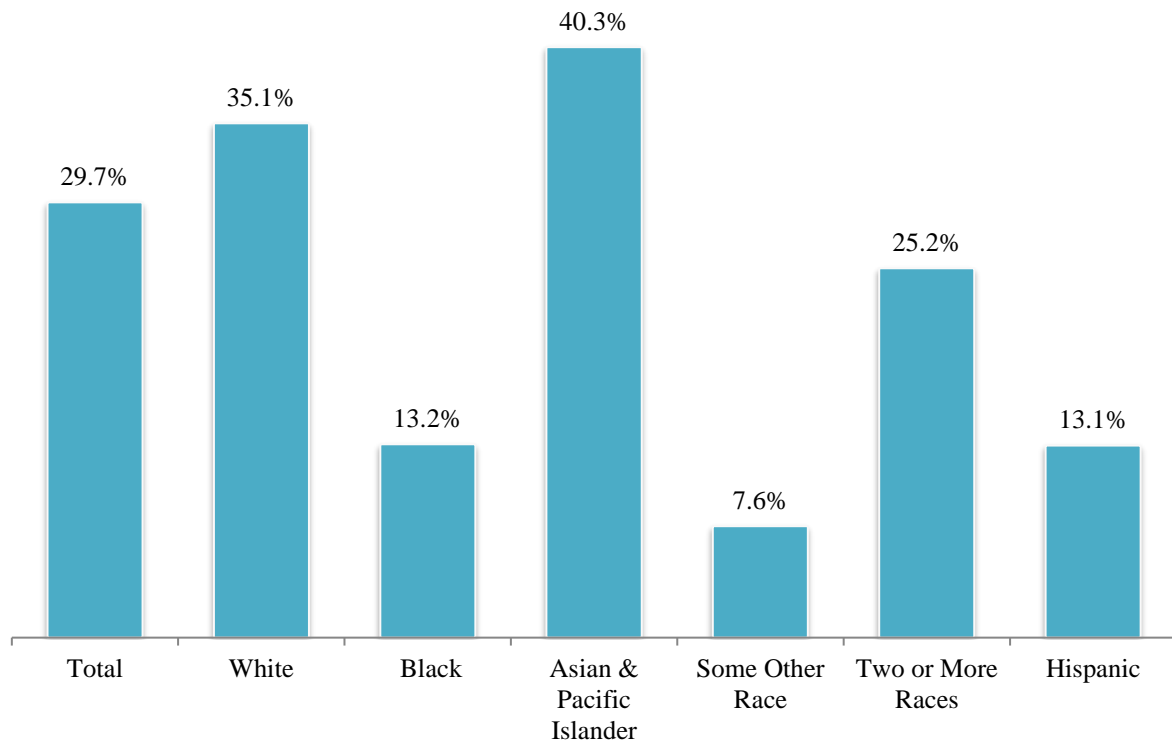

There was an increase in household income inequality with respect to household incomes in Westchester County (Figure 21).⁶

⁶ Gini Index derived from the American Community Survey, for the years 2010-2017, Table B19083.

The proportion of households with annual income of \$150,000 or more was 35.1% for White households, 13.2% for Black households, 40.3% for Asian and Pacific Islander households, and 13.1% for Hispanic households (Figure 22).

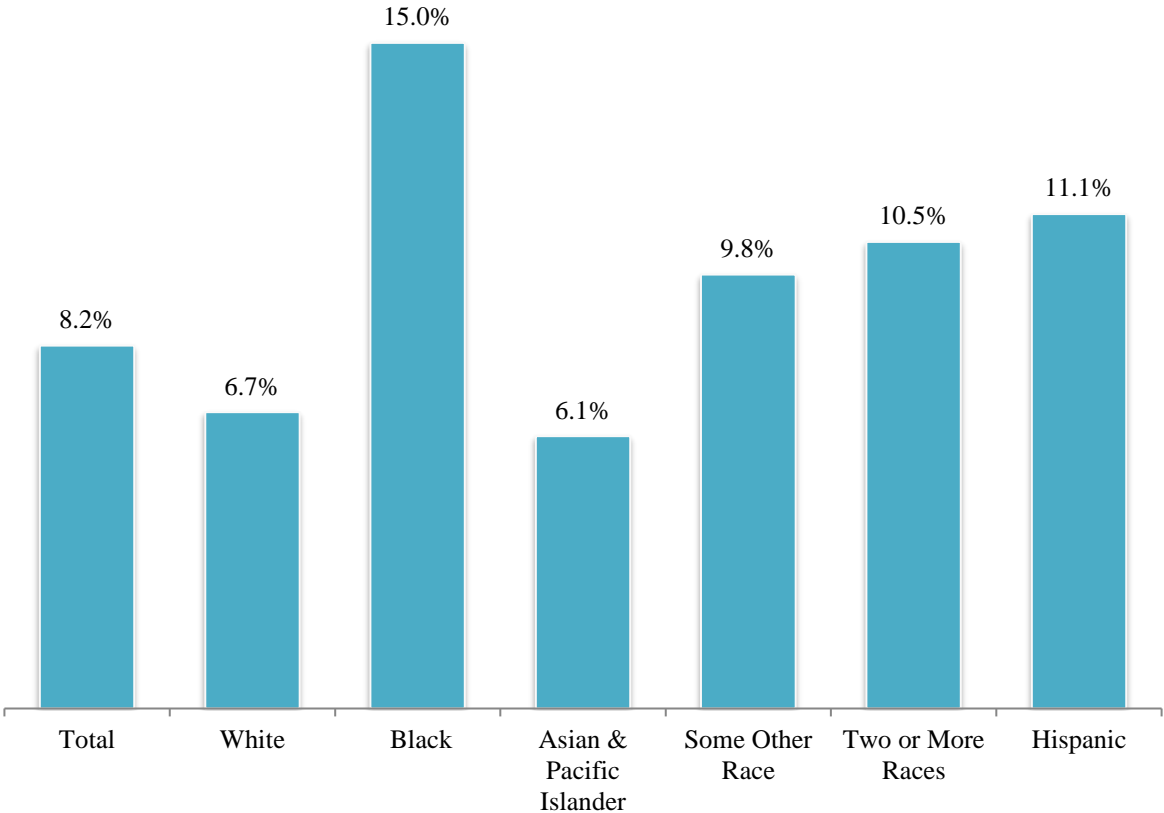

Figure 22. Percent of Households with Annual Incomes of \$150,000 or More by Race and Ethnicity, Westchester County, 2013-2017 ACS.

Source: 2013-2017 ACS.

The proportion of households reporting incomes of less than \$15,000 annually was 6.7% for White households, 15.0% for Black households, 6.1% for Asian and Pacific Islander households, and 11.1% for Hispanic (of any race) households (Figure 23).

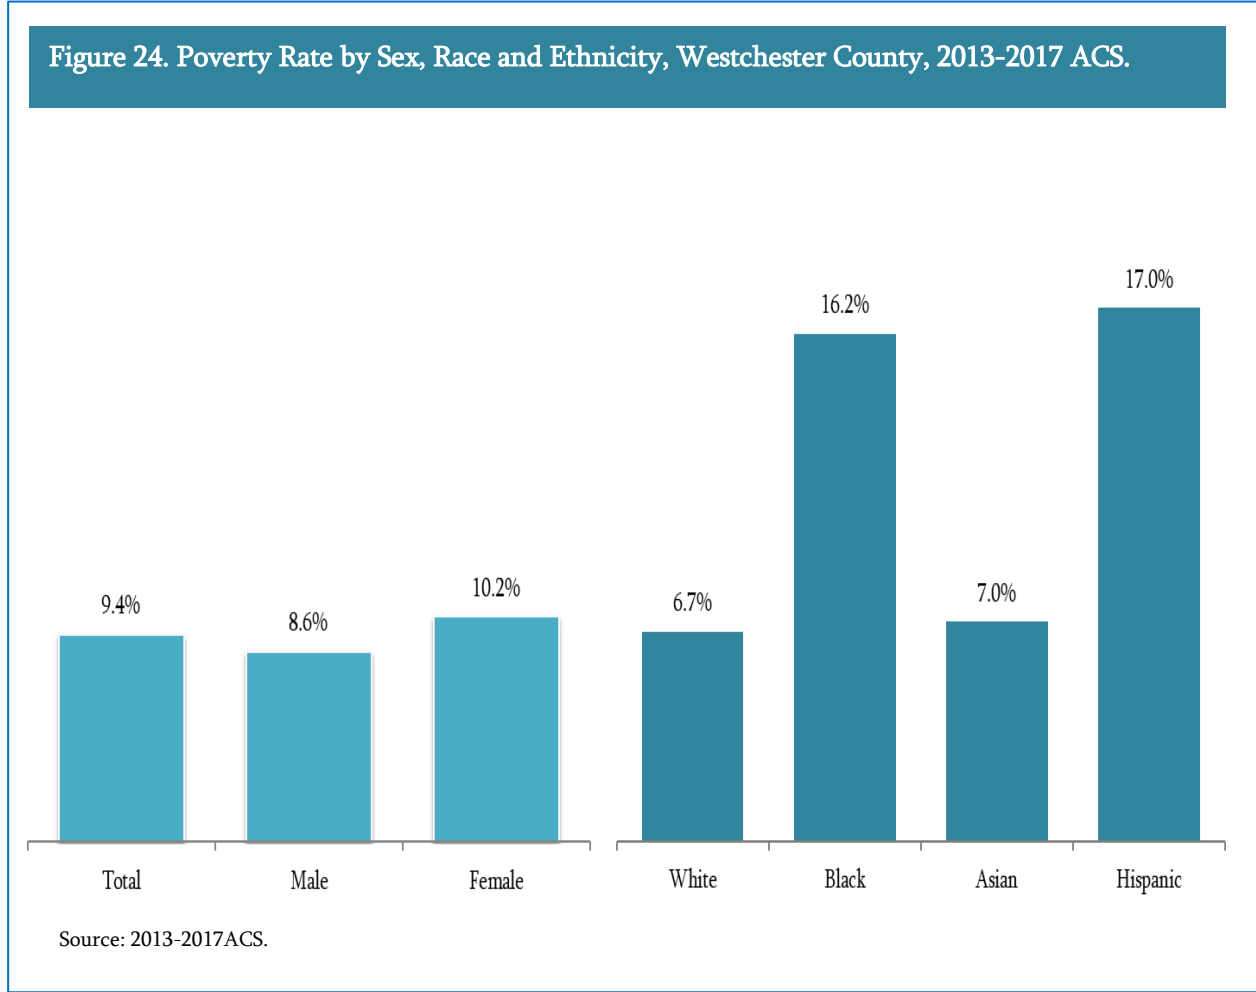

Figure 23. Percent of Households with Annual Incomes of \$15,000 or Less by Race and Ethnicity, Westchester County, 2013-2017 ACS.

Source: 2013-2017ACS.

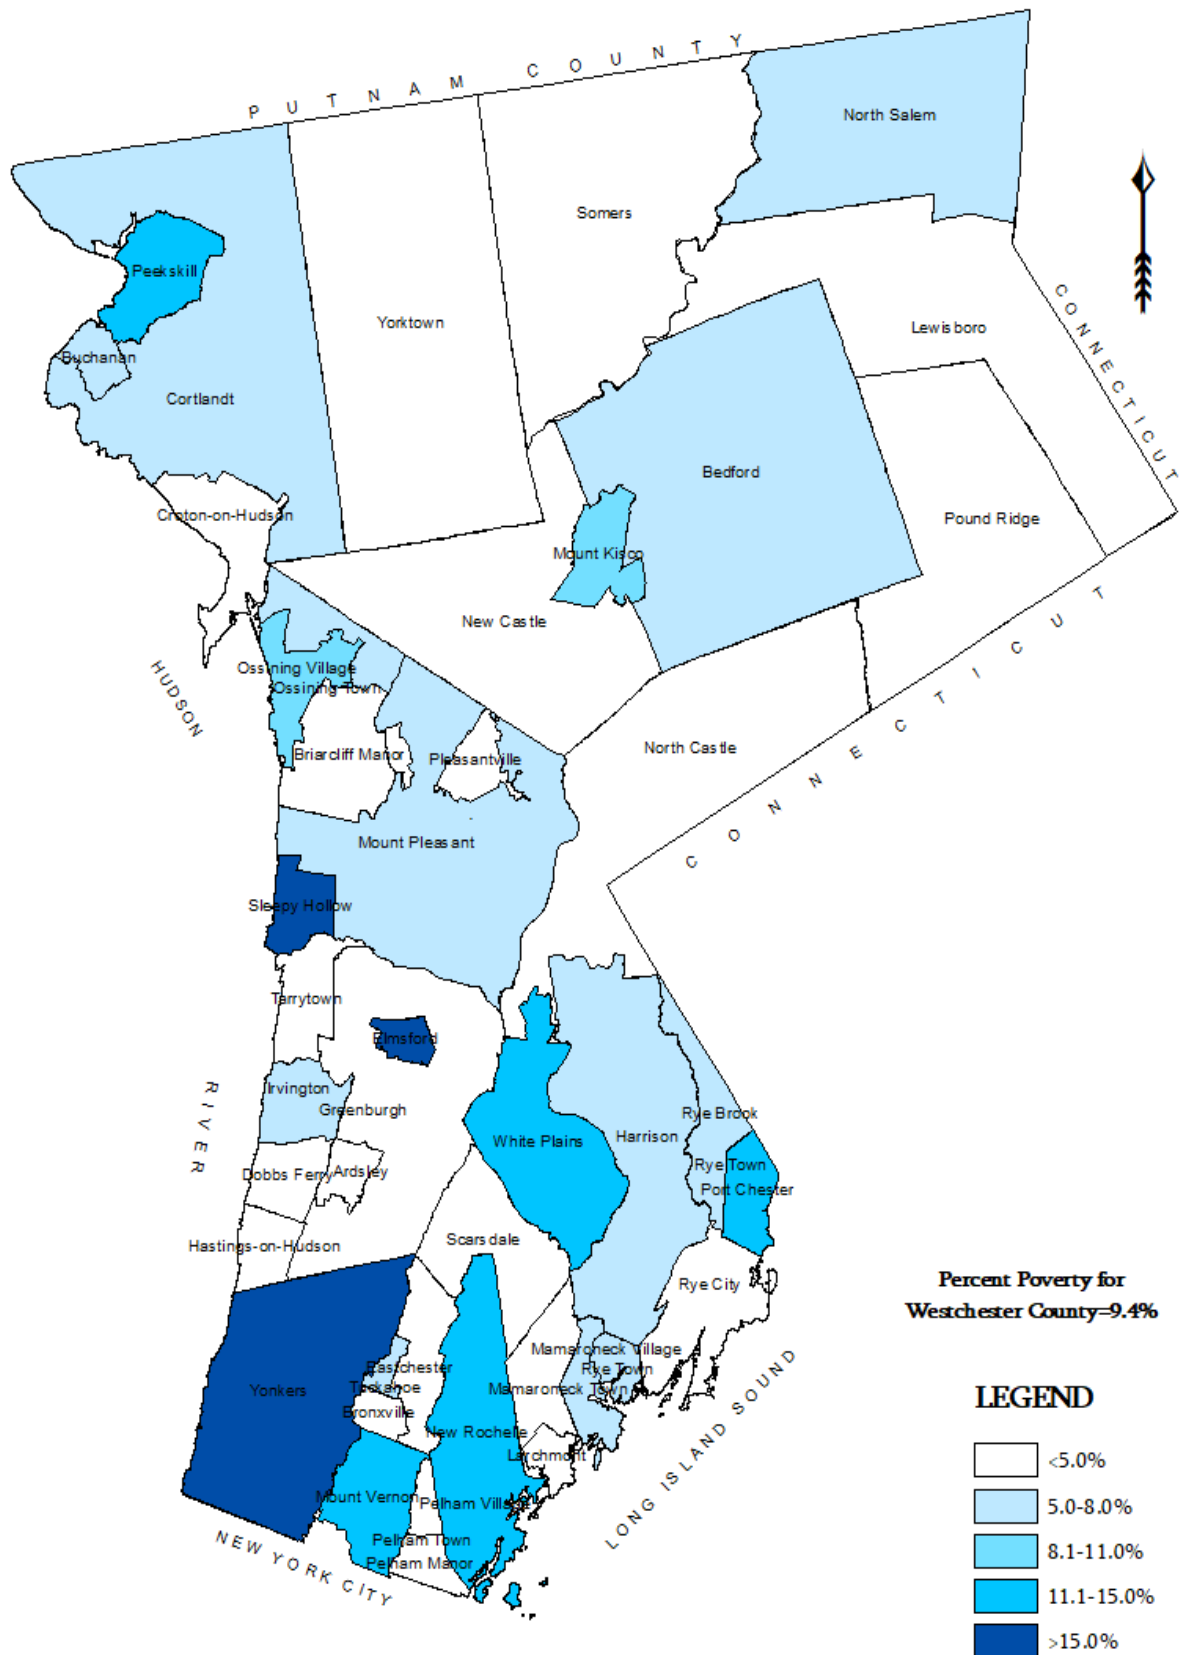

Social security income was the highest (30.9%) source of additional income, followed by those with retirement income (18.5%), food stamp benefits (9.4%), supplementary security income (3.8%) and receiving cash public assistance (2.0%).

The poverty rate for Westchester County was 9.4% and varied by sex and race/ethnicity (Figure 24). The poverty rate was 10.2% among females and 8.6% among males. Females were more likely to live in poverty than males in every racial and ethnic category.

Nine municipalities where more than 10.0% of the population were living in poverty: Peekskill, Ossining, Sleepy Hollow, Elmsford, White Plains, New Rochelle, Mount Vernon, Yonkers, and Port Chester (Figure 25).

Figure 25. Percent in Poverty by Municipality, Westchester County, 2013-2017 ACS.

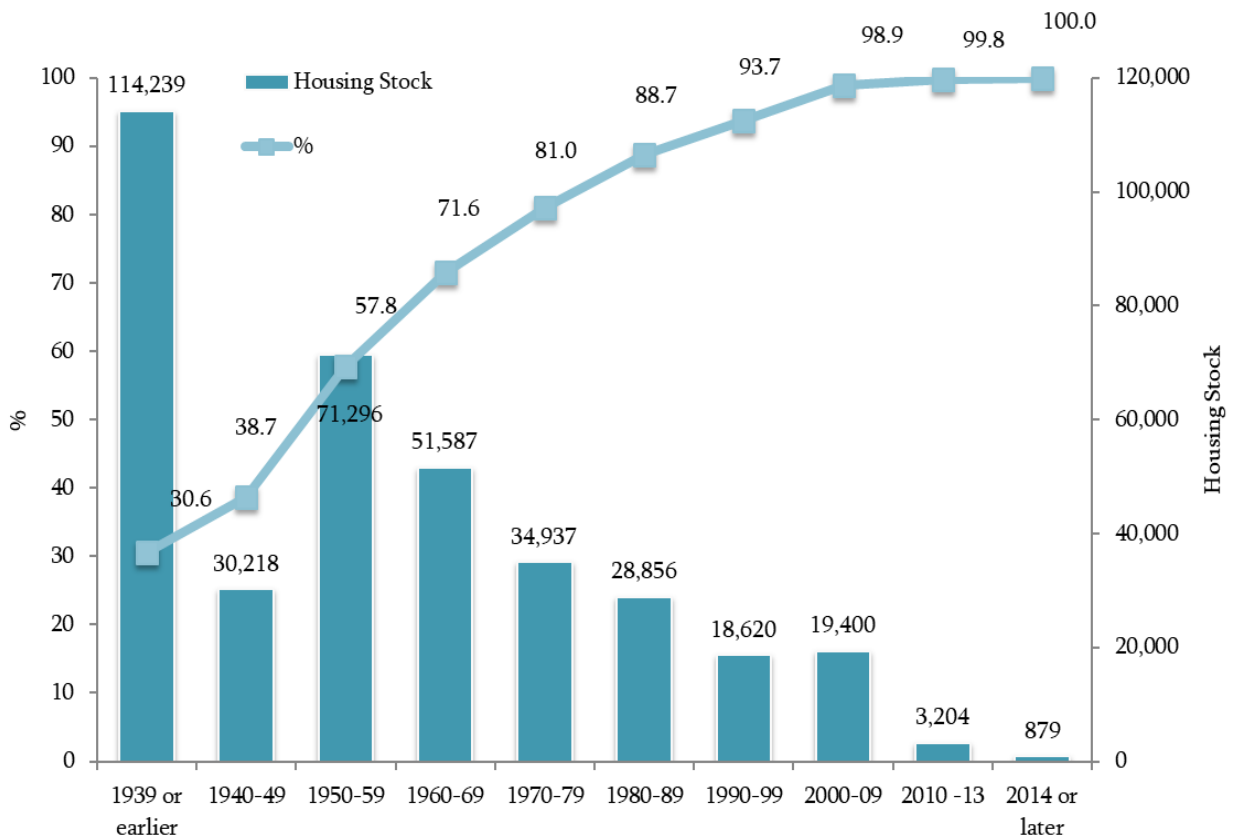

Source: 2013-2017ACS.

Housing

Westchester County had 373,236 housing units. Over four-fifths (81.0%) of the housing units were constructed before 1980, and almost a third (30.6%) were constructed before 1940 (Figure 26).

Figure 26. Percent Distribution of Housing Units by the Year the Structure Was Built, Westchester County, 2013-2017 ACS.

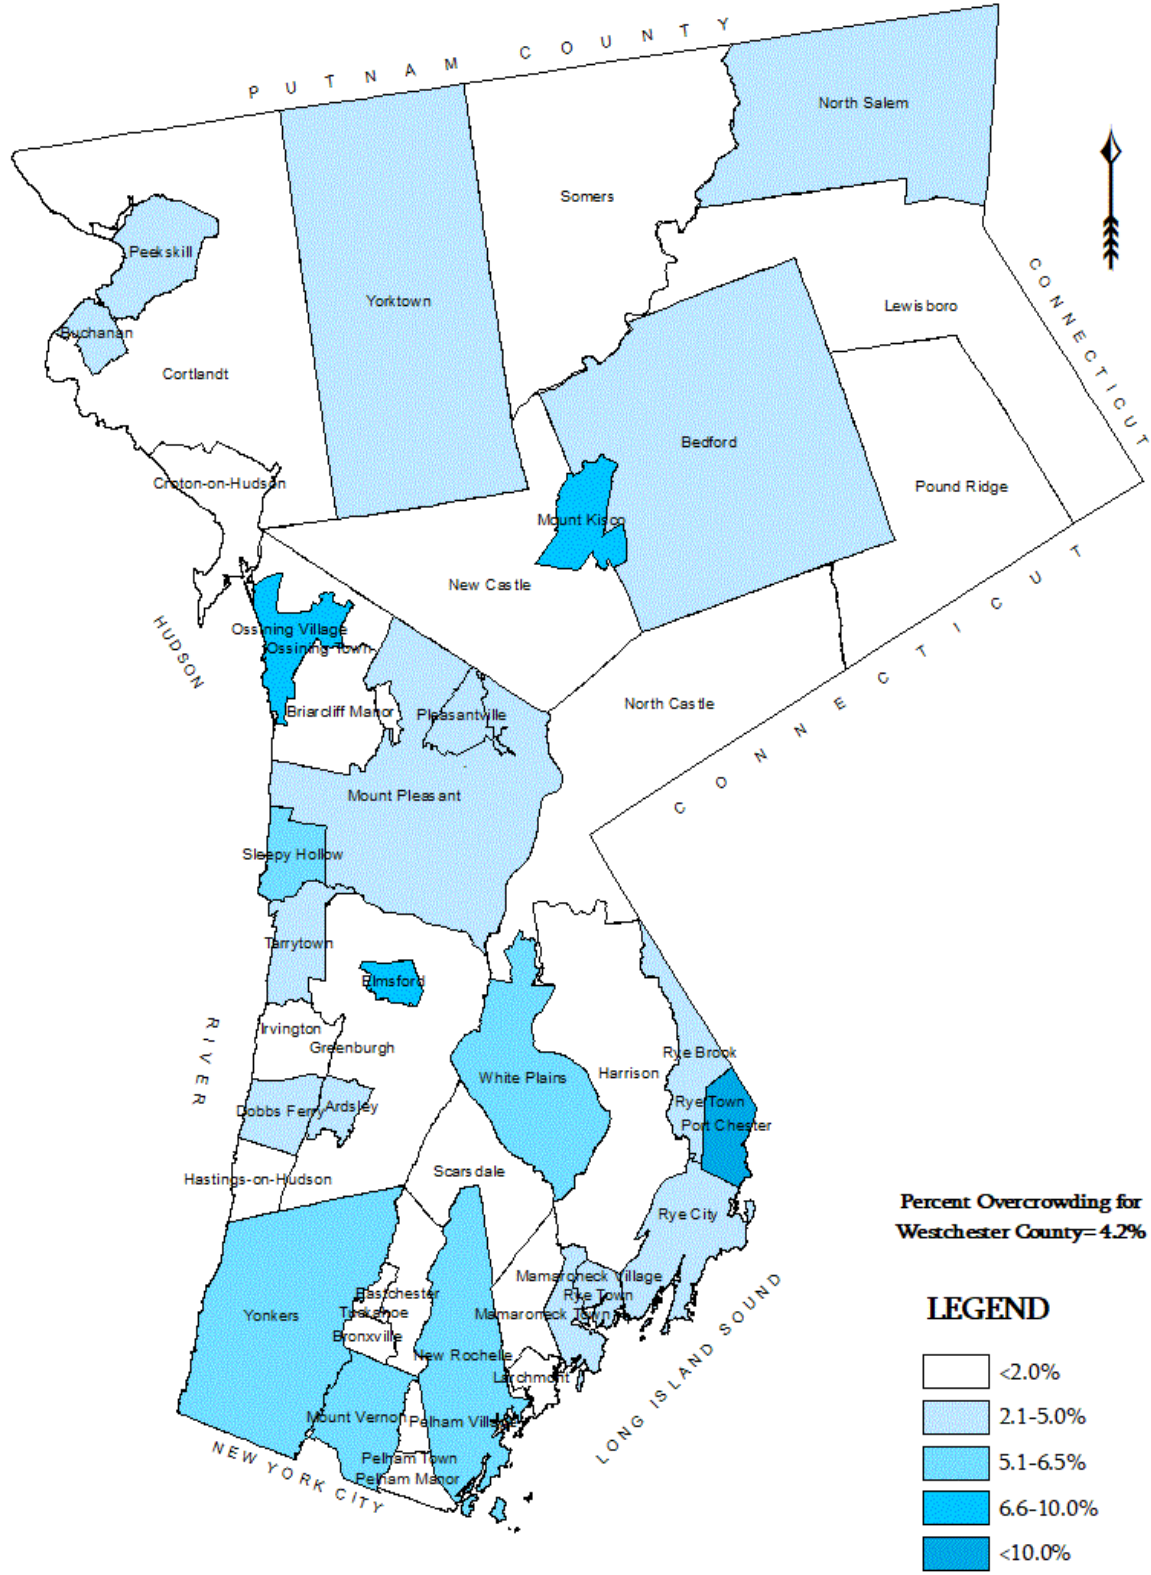

Source: 2013-2017 ACS.

Over 4.0% of the occupied housing units in Westchester County were reported as “overcrowded”⁷ (Figure 27). Overcrowded units (as a percentage of number of units) were highest in the Southwest (6.1%) and lowest in the Northeast (2.3%) of the county.

⁷ Overcrowding is defined as more than 1.0 person per room per occupied housing unit.

Figure 27. Percent of Population Residing in Overcrowded Housing by Municipality, Westchester County, 2013-2017 ACS.

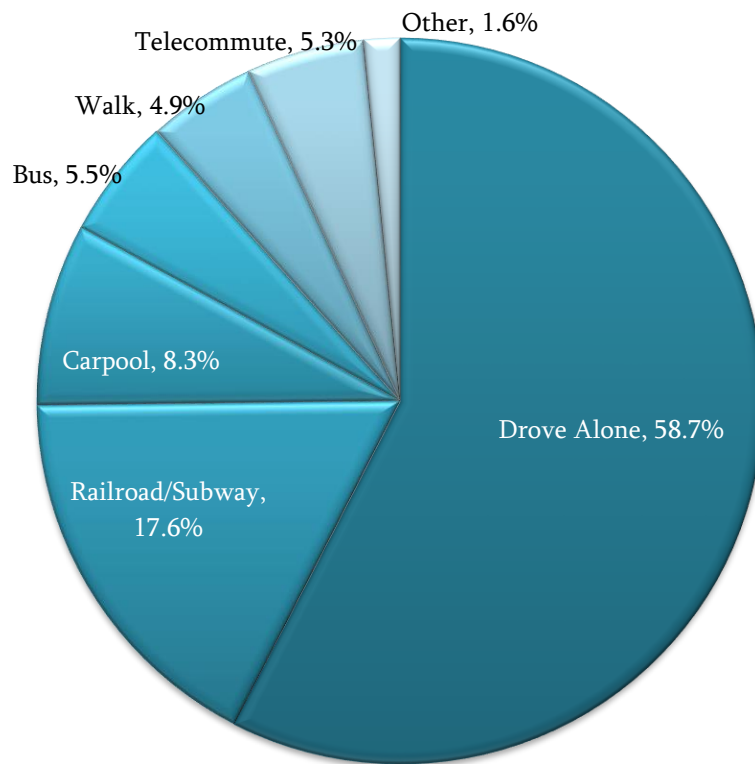

Source: 2013-2017ACS.

Commuting

Most of Westchester County residents who are employed in the civilian labor force commute⁸ to work (93.4%). The majority of these commuters drove alone (58.7%). Over one-third chose an alternative method of transportation, including public transportation, carpooling, bicycling, or walking.⁹ (Figure 28). This was significantly higher than the average for the United States (22.3%).¹⁰ There are also variations within regions of Westchester County with respect to car use and alternate modes of transportation to work. Driving alone to work is highest in the Northeast region (68.6%) and lowest in the East Central region with 52.9% (Figures 29).

Figure 28. Percent Distribution of Commuting Methods, Westchester County, 2013-2017ACS.

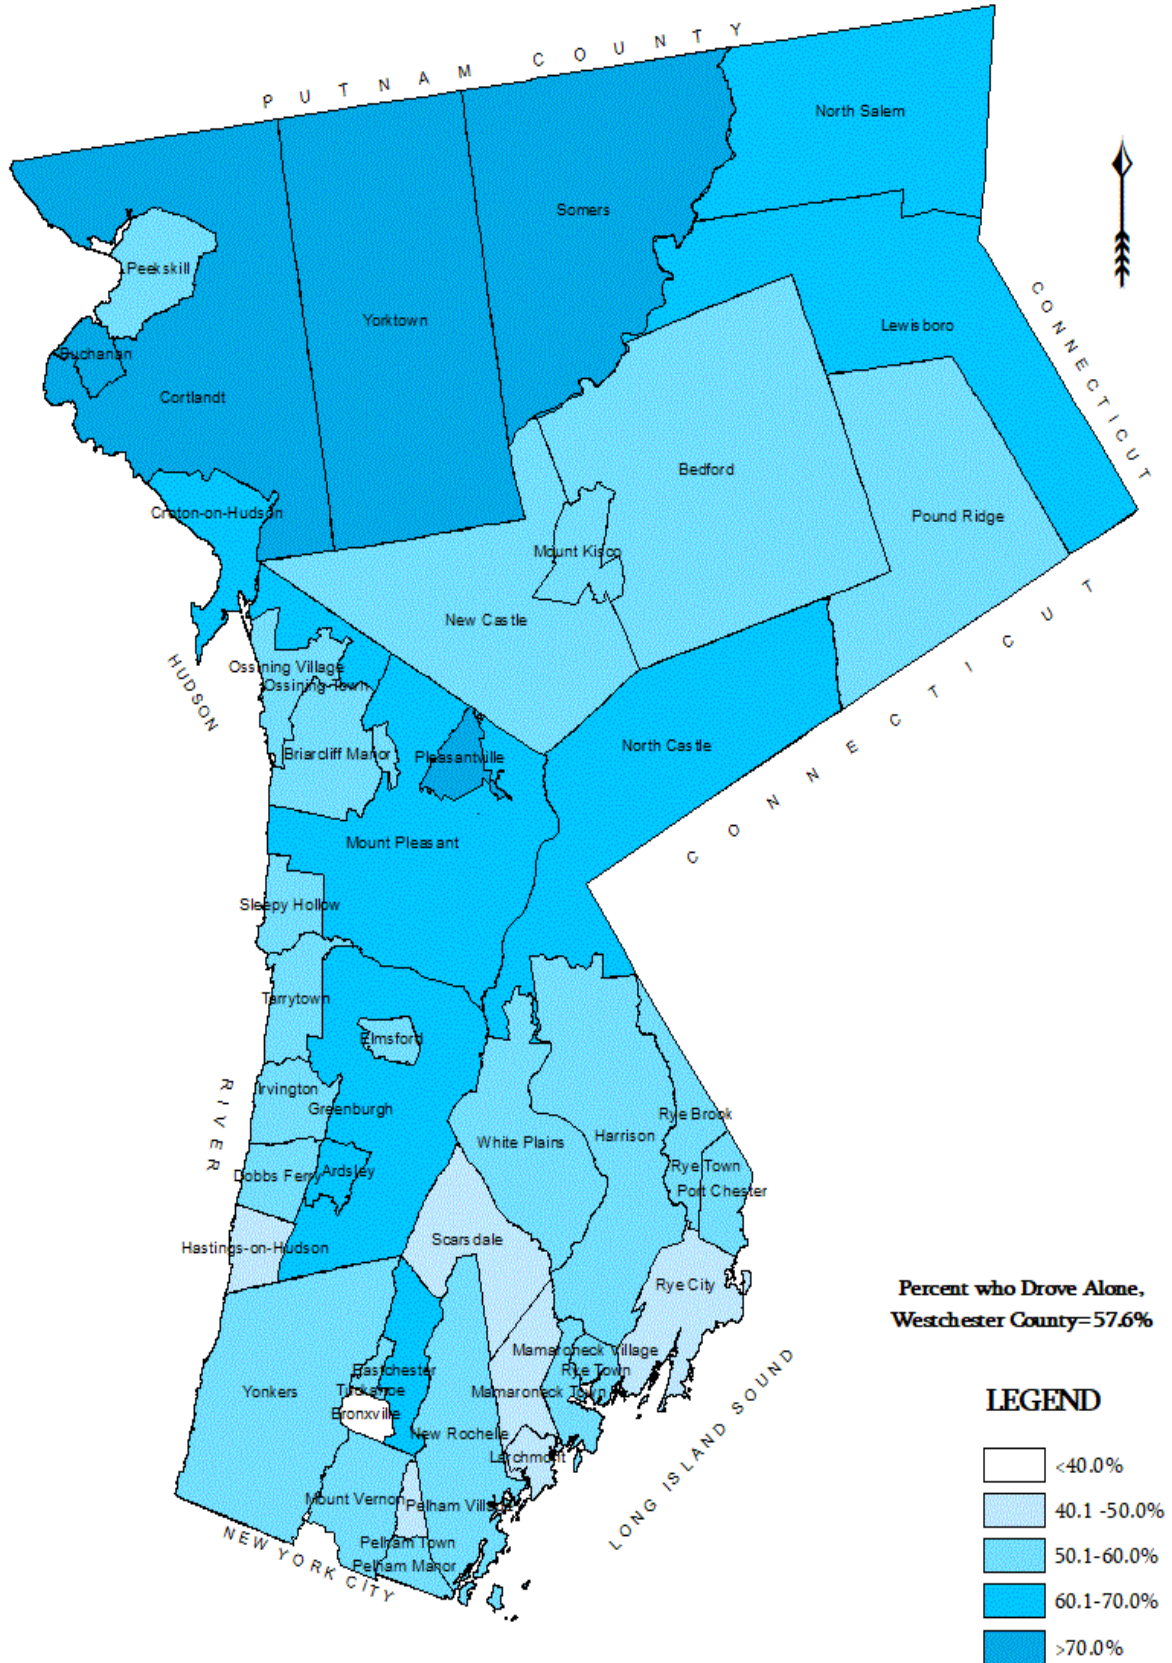

Source: 2013-2017ACS.

⁸ Defined as the journey from home to the geographic location at which workers carry out their occupational activities

⁹ Note that in Figure 28, the category 'Other' includes taxicabs and motorbikes.

¹⁰ Using t-tests on zip code information.

³ American Community Survey, 2012-2016, Tables B15002, C15002a-i.

⁴ Estimates were calculated according to ACS guidelines, see Appendix 1.

⁵ Hispanic is an ethnic group and may be of any race. Therefore, Hispanics are also reported in the race categories.

**** Estimate has been controlled. A statistical test for sampling variability is not appropriate.

⁴ This represents the figure for Asians alone. For the 2007-2011 ACS the median household income for Pacific Islanders was \$63,611, for the 2013-2017 ACS \$120,313 and for the 2012-2016 ACS there were not enough sample observations to provide an estimate.

** Insufficient numbers of this racial category and zip code to generate median.

>250K: All households in this racial category and zip code were greater than \$250,000 in 2007-2011, 2012-2016 and 2013-2017 ACS.

Totals are for zip code data within Westchester County boundaries.

Table 33. Median Household Income by Race/Ethnicity and Zip Code, Westchester County, 2007-2011, 2012-2016 and 2013-2017.

⁴This represents the figure for Asians alone. For the 2007-2011 ACS the median household income for Pacific Islanders was \$63,611, for the 2013-2017 ACS \$120,313 and for the 2012-2016 ACS there were not enough sample observations to provide an estimate.

** Insufficient numbers of this racial category and zip code to generate median.

>250K: All households in this racial category and zip code were greater than \$250,000 in 2007-2011, 2012-2016 and 2013-2017 ACS.

Totals are for zip code data within Westchester County boundaries.

Alternate modes of transportation include public transportation, carpooling, bicycling, walking, or telecommuting.

Totals are for zip code data within Westchester County boundaries.

Appendices

Appendix 1. Data Sources and Definitions

American Community Survey (2013-2017)

Demographic and socio-economic information for Westchester County for the 2019 Annual Data Book is primarily based on data from the 2013-2017 American Community Survey, collected by the United States Census Bureau.¹¹

Beginning in 2010, the American Community Survey (ACS) is a nationwide survey replacing the 'long form' of the 10-year census and provides updated demographic, economic, social, and housing information of the communities of this country. The decennial census in 2010 now only collects 'short form' data on age, sex, race and ethnicity. Data for the ACS is collected every month throughout the year, and reflects sampling from the current Master Address File of the 2000 Census, updated with information from the United States Postal Service (USPS) Delivery Sequence File, USPS field operations, and address information from partnerships with local governments. Data now includes all county and county-equivalents nationwide and all *municipios* of Puerto Rico, for areas with a population of 65,000 or more, including Westchester County. In 2006, the ACS began collection of data from sampled persons in group quarters (for example, military barracks, college dormitories, nursing homes, and correctional facilities). The 2013-2017 ACS estimates describe the average characteristics of the population over the period from January 1, 2013 to December 31, 2017.¹² Data definitions of demographic, housing, and socioeconomic information are similar to those used in the 2000 Census.¹³

The five-year averages were calculated by pooling the 60 months of collected data. The pooled data were weighted to adjust for geographic factors, month-specific weighting steps, population and housing unit controls, and inflation factors. Geographic corrections were referenced to the final year in the multiyear period. For example, average estimates for the 2013-2017 time period are referenced to geographic boundaries from 2017.

In several instances throughout the demographic tables, standard errors of combined categories (such as the sum of males and females) were estimated by the WCDH, using the method described in the document **Using American Community Survey Estimates and Margins of Error**, a US Census Bureau publication available at <https://www.census.gov/programs-surveys/acs/guidance/training-presentations/acs-moe.html>. The estimate of the standard error of a sum is approximately the square root of the sum of the two individual standard errors squared. However, as noted in the Census

¹¹ Note that information was garnered on the 2007-2011 ACS for review, comparison and related analytical purposes because this was the last period data was collected for the Community Health Assessment Supplemental Report on Population.

¹² https://www.census.gov/programs-surveys/acs/news/data-releases/2017/release.html#par_textimage_700933727

¹³ In many cases, definitions are identical but in the 2013-2017 ACS definitions are more expansive and additional information is provided to become more explanatory.

https://www2.census.gov/programs-surveys/acs/tech_docs/subject_definitions/2016_ACSSubjectDefinitions.pdf

https://www.census.gov/population/www/cen2000/censusatlas/pdf/16_Backmatter-Glossary.pdf

document, “this method will underestimate or overestimate the standard error if the two estimates interact in either a negative or positive way.”

Race and Ethnicity

The concept of race, as defined by the U.S. Census Bureau, reflects self-identification by people according to the race or races with which they most closely identify. The categories of race are considered to be socio-political and should not be interpreted as scientific or anthropological in nature.

White: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicate their race as “White” or report entries such as Irish, German, Italian, Lebanese, Near Easterner, Arab, or Polish.

Black or African American: A person having origins in any of the original peoples of sub-Saharan Africa. It includes people who indicate their race as “Black or African American” or provide written entries such as African American, Ethiopian, Somalian, Senegalese, Sudanese, Ghanaian, Kenyan, Nigerian, or Haitian.

American Indian or Alaska Native: A person having origins in any of the original peoples of North or South America (including Central America) and who maintain tribal affiliation or community attachment.

Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, for example Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Native Hawaiian or Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. It includes people who indicate their race as “Native Hawaiian,” “Guamanian or Chamorro,” “Samoaan,” and “Other Pacific Islander.”

Other Race: Includes all other responses not included in the “White,” “Black or African American,” “American Indian or Alaska Native,” “Asian,” and “Native Hawaiian or Other Pacific Islander” race categories described above. Respondents providing write-in entries such as multiracial, mixed, interracial, or a Hispanic/Latino group (for example, Mexican, Puerto Rican, or Cuban) in the “Some other race” write-in space are included in this category.

Hispanic or Latino: The data on the Hispanic or Latino population were derived from answers to a question on the 2000 census that was asked of all people. The terms “Spanish,” “Hispanic origin,” and “Latino” are used interchangeably. Some respondents identified with all three terms while others identify with only one of these three specific terms. Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person’s parents or ancestors before their arrival in the United States. People who identify their origin as Spanish, Hispanic, or Latino may be of any race.

Two or More Races: People may have chosen to provide two or more races either by checking two or more race response check boxes, by providing multiple write-in responses, or by some combination of check boxes and write-in responses. The race response categories shown on the questionnaire are collapsed into the five minimum race groups identified by the Office of management and Budget (OMB), and the Census Bureau “Some other race” category. For data product purposes, “Two or more races” refers to combinations of two or more of the following race categories:

- White
- Black or African American
- American Indian or Alaska Native
- Asian
- Native Hawaiian or Other Pacific Islander
- Some other race

Education

Educational Attainment: Educational attainment refers to the highest level of education fully completed in terms of the highest degree or highest level of schooling. This is distinct from the level of schooling that an individual is currently attending.

Labor Force Participation and Employment

Labor force: The labor force includes all people classified in the civilian labor force, plus members of the U.S. Armed Forces (people on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard). The Civilian Labor Force consists of people classified as employed or unemployed.

Employed: Employed includes all civilians 16 years old and over who were either (1) "at work" -- those who did any work at all during the reference week as paid employees, worked in their own business or profession, worked on their own farm, or worked 15 hours or more as unpaid workers on a family farm or in a family business; or (2) were "with a job but not at work" -- those who did not work during the reference week but had jobs or businesses from which they were temporarily absent due to illness, bad weather, industrial dispute, vacation, or other personal reasons. Excluded from the employed are people whose only activity consisted of work around the house or unpaid volunteer work for religious, charitable, and similar organizations; also excluded are people on active duty in the United States Armed Forces. The reference week is the calendar week preceding the date on which the respondents completed their questionnaires or were interviewed. This week may not be the same for all respondents.

Citizenship Status and Language Spoken at Home

Foreign-born population: People who are not U.S. citizens at birth. This includes respondents who indicated they were a U.S. citizen by naturalization or not a U.S. citizen.

Native population: People born in either the United States, Puerto Rico, or a U.S. Island Area such as Guam or the U.S. Virgin Islands, or people born in a foreign country of American (U.S. citizen) parent or parents.

Citizen: People who indicate that they were born in the United States, Puerto Rico, a U.S. Island Area, or abroad of a U.S. citizen parent(s) are citizens. People who indicate that they are U.S. citizens through naturalization are also citizens. Naturalized citizens are foreign-born people who identify themselves as naturalized. Naturalization is the conferring, by any means, of citizenship upon a person after birth.

Not a Citizen: People who indicated they were not U.S. citizens at the time of this survey.

Language spoken at home: The language currently used by respondents at home, either "English only" or a non-English language, which is used in addition to English or in place of English. Beginning with 2016 1-year and 2012-2016 5-year American Community Survey (ACS) data, coding of specific languages reflects languages in accordance with the International Organization for Standardization's ISO-639-3 standard. To the extent possible, languages in the code list are those considered individual spoken languages.

Family Structure and Housing

Household: A household consists of all the people who occupy a housing unit. A house, an apartment or other group of rooms, or a single room, is regarded as a housing unit when it is occupied or intended for occupancy as separate living quarters; that is, when the occupants do not live and eat with any other persons in the structure and there is direct access from the outside or through a common hall.

Family Household: A group of people living in a household who are related to the householder by birth, marriage, or adoption.

Non-Family Household: A non-family household consists of a householder living alone (a one-person household) or where the householder shares the home exclusively with people to whom he/she is not related.

Family: A household whose members are related by birth, marriage or adoption. Family households may also include unrelated individuals.

Married-Couple Family: A family consisting of two legally married people, with or without own children under 18.

Single Mother Family or Single Father Family: A family household consisting of one parent, no spouse, and own children under 18. Other adults may share the household as well.

Related children: Includes all people in a household under the age of 18, regardless of marital status, who are related to the householder. Does not include householder's spouse or foster children, regardless of age.

Overcrowded Housing: An overcrowded housing unit is defined as a housing unit with greater than 1.0 persons per room.

Income and Poverty

Total income: The sum of the amounts reported separately for wages, salary, commissions, bonuses, or tips; self-employment income from own non-farm or farm businesses, including proprietorships and partnerships; interest, dividends, net rental income, royalty income, or income from estates and trusts; Social Security or Railroad Retirement income; Supplemental Security Income (SSI); any public assistance or welfare payments from the state or local welfare office; retirement, survivor, or disability pensions; and any other sources of income received regularly such as Veterans' (VA) payments, unemployment compensation, child support, or alimony. In the ACS Surveys, income was reported for the period covering the last 12 months.

Poverty: Following the Office of Management and Budget's (OMB's) Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to delineate who is in poverty. If the total income for a family or unrelated individual falls below the relevant poverty threshold, then the family or unrelated individual is classified as being "below the poverty level."

Commuting

Commuting: Commuting refers to a worker's travel from home to the geographic location at which workers carry out their occupational activities. A worker is defined as a person 16 years old and over, who was employed and at work during the reference week. Commuting method refers to the principal mode of transportation or type of conveyance that the worker usually used to get from home to work during the reference week. People who used different means of transportation on different days of the week were asked to specify the one they used most often, that is, the greatest number of days. People who used more than one means of transportation on a daily basis were asked to report the one used for the longest distance during the travel to work.

1 For regional planning purposes, municipalities are grouped into six geographic health planning regions.

2 A town may or may not include incorporated villages located within the town boundary. When it does not include any incorporated villages within the town boundary, the statistics refer to the town as a whole (T). When it does include incorporated villages within its boundary, the statistics refer to the unincorporated area within the town boundary (TOV). The entities of Harrison, Mount Kisco, and Scarsdale are both towns and villages (V/T). The land in two towns, Pelham and Rye, has been incorporated into separated villages. Cities are denoted by (C).

3 The Village of Briarcliff Manor and the Village of Mamaroneck are split between two towns. Briarcliff Manor is within the Town of Ossining (92% of its surface area and 91% of its population) and the Town of Mount Pleasant (8% of its surface area and 9% of its population). The Village of Mamaroneck is within the Town of Mamaroneck (63% of its surface area and 60% of its population) and the Town of Rye (37% of its surface area and 40% of its population).
