## Westchester County Social Vulnerability Index (SVI), 2022

### In this issue:

- Overview
- Socioeconomic Vulnerability
- Household Characteristics Vulnerability
- Racial & Ethnic Minority Vulnerability
- Housing Type & Transportation Vulnerability
- Overall Social Vulnerability
- Data Table
- Census Tract Map

Jiali Li, Ph.D.  
Director of Research &  
Evaluation

Westchester County, located just north of New York City, is situated in the southeastern part of New York State, bordered by the Hudson River to the west and the Long Island Sound to the east. It covers an area about 450 square miles with rolling hills, parks, farmland, lakes, running rivers, as well as modern cities and advanced transportation systems. The county contains six cities and 19 towns (many including incorporated villages within the town borders).

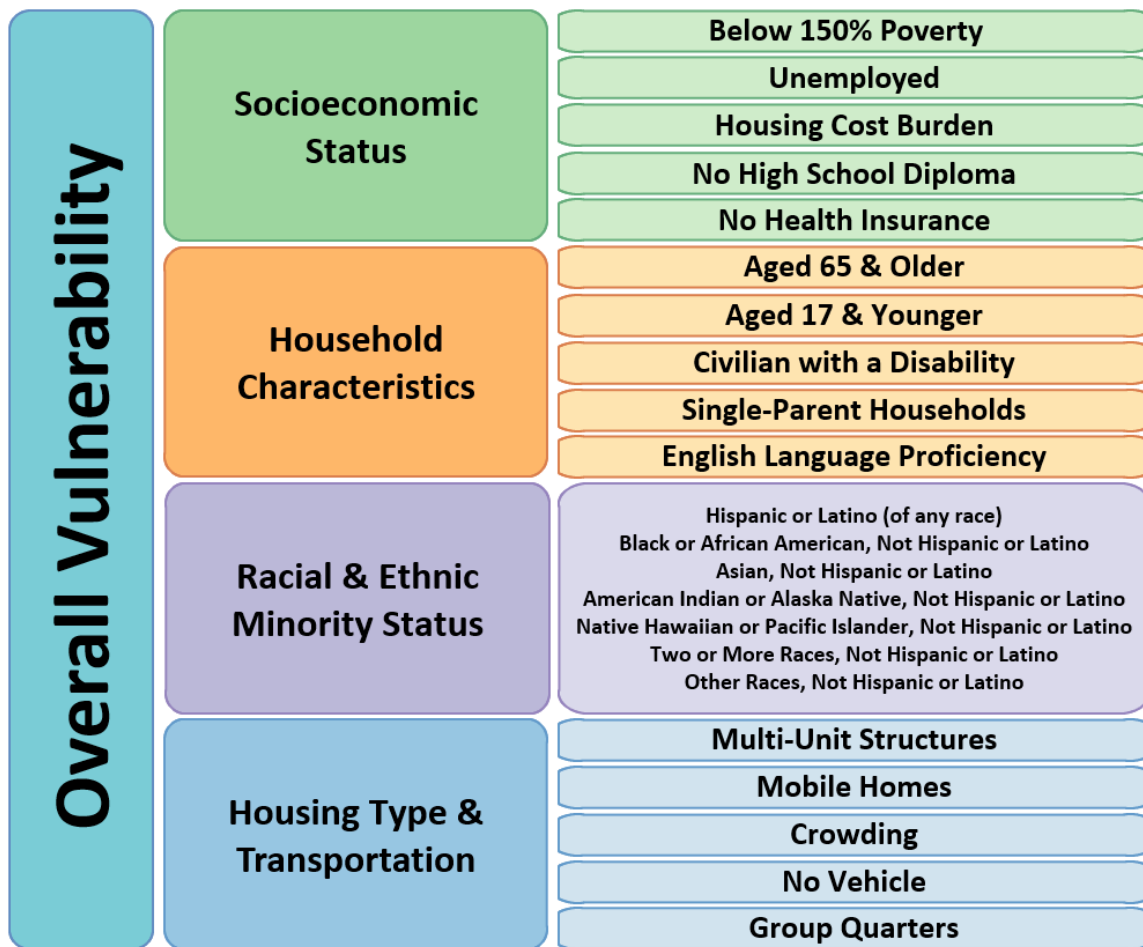

Like any counties in United States, Westchester County is diversified in terms of its geographic, demographic, cultural, socioeconomic as well as general infrastructure compositions among its communities. Many communities face multiple challenges when facing external stresses such as natural and/or human-caused disasters or pandemic disease outbreaks. It is, therefore, necessary to identify and quantify such communities for emergency preparedness.

Intended to help identify communities that may be more susceptible to adverse hazards and emergencies, and to help public health officials and local planners better prepare for and respond to emergency events, the Centers for Disease Control and Prevention and Agency for Toxic Substance and Disease Registry (CDC/ATSDR) created the Social Vulnerability Index (SVI) designed to identify the socially vulnerable communities by taking into consideration demographic characteristics, socioeconomic status, household composition, as well as housing and transportation infrastructure.

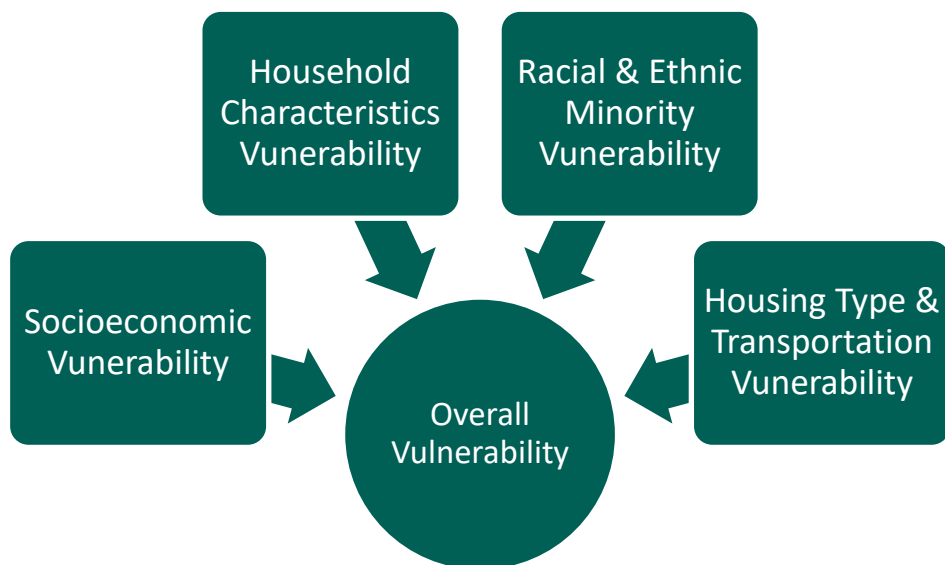

This data brief reports the current Westchester County Social Vulnerability Index (SVI) by census tract developed by the CDC/ATSDR based on the 2022 American Community Survey (ACS) conducted by the Census Bureau.

# Overview

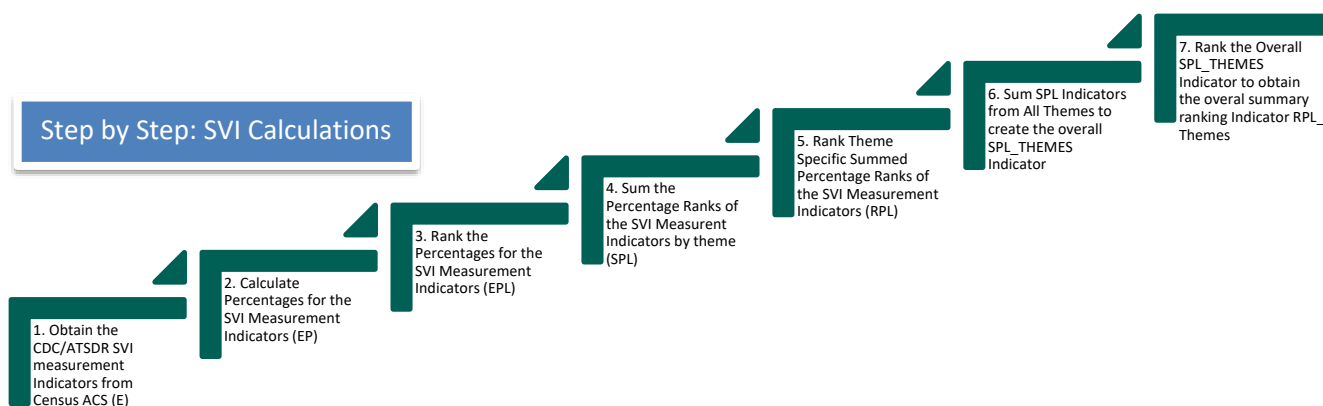

The 2022 SVIs are derived from 16 indicators obtained from the 2022 American Community Survey. These 16 indicators are grouped into four themes, each theme represents one aspect of social vulnerability and a corresponding index is calculated. These four themes are then combined into one final theme as the overall vulnerability and an overall social vulnerability index is calculated accordingly.

# Overview

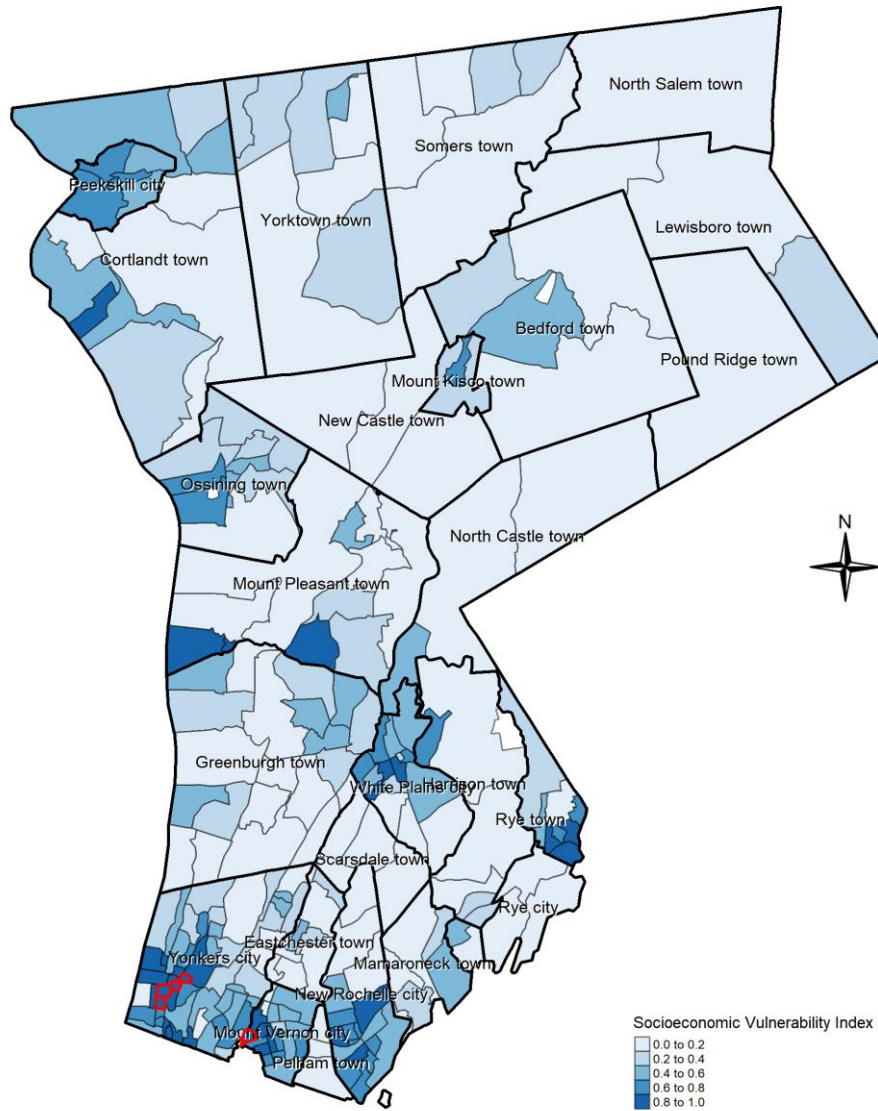

## Step by Step: SVI Calculations

The calculations of the SVIs include multiple steps which involve calculating the percentages and rankings of each indicator, obtaining the theme vulnerability index, and finally combining the four theme indices into the final overall Social Vulnerability Index. The most vulnerable community has an index=1, and the least vulnerable community has an index=0.

For detail methodology of the calculations, please refer to *Centers for Disease Control and Prevention/ Agency for Toxic Substance and Disease Registry/ Geospatial Research, Analysis, and Service Program. CDC/ATSDR Social Vulnerability Index, 2022 Database.* <https://www.atsdr.cdc.gov/place-health/php/svi/index.html>.

# Socioeconomic Vulnerability

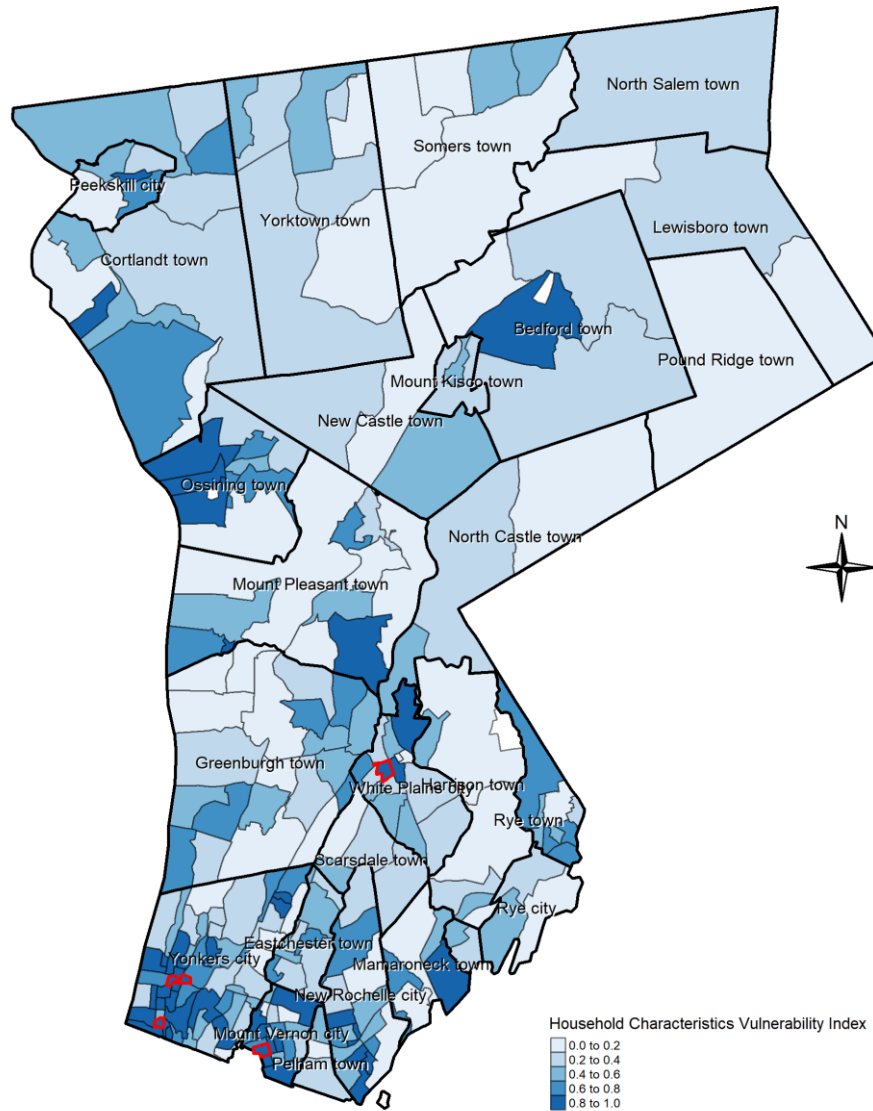

- Socioeconomic Vulnerability Measurements
- Below 150% Poverty
- Unemployed
- Housing Cost Burden
- No High School Diploma
- No Health Insurance

Census Tract	Highest SVI Measures		
	Total Population	Area (Sq. miles)	Socioeconomic Vulnerability Index
Census Tract 10	2111	0.0791	0.9937
Census Tract 3	4021	0.1490	0.9933
Census Tract 11.01	3609	0.0679	0.9926
Census Tract 35	1870	0.1371	0.9747
Census Tract 1.01	4676	0.0988	0.9732

# Household Characteristics Vulnerability

## Household Characteristics Vulnerability Measurements

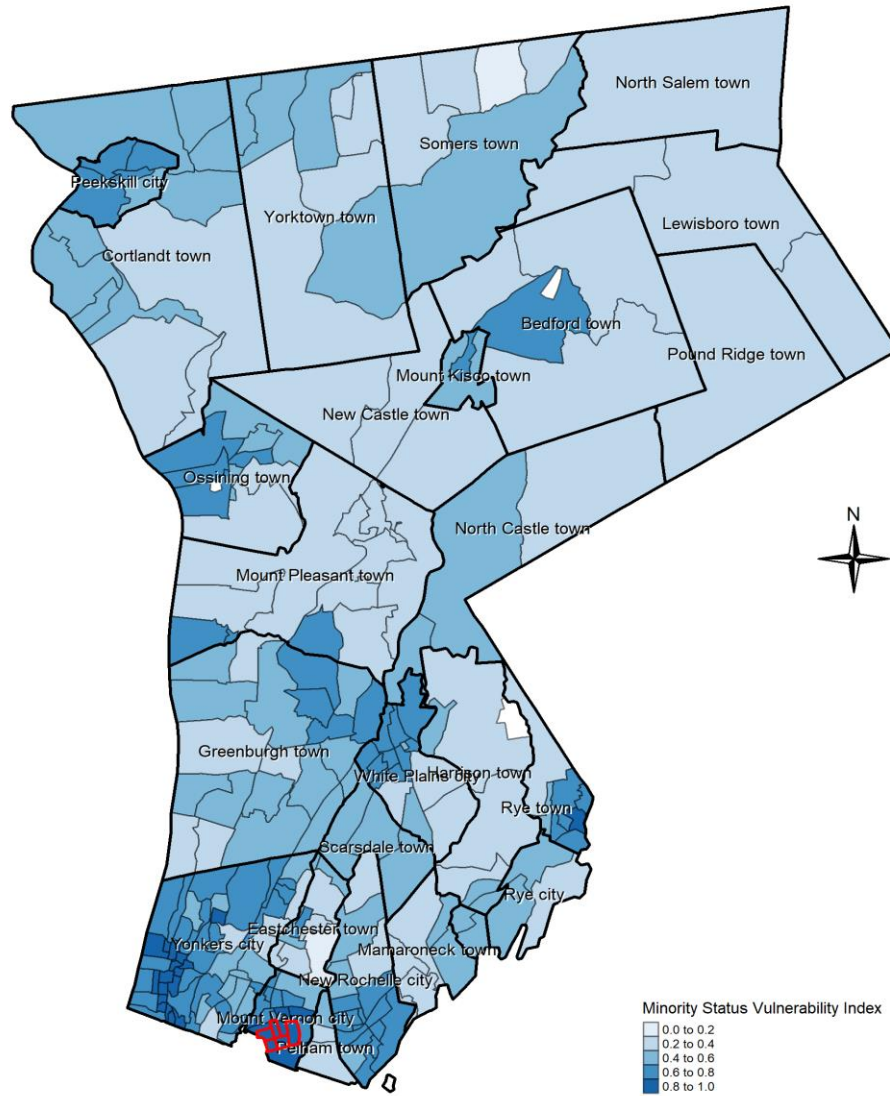

- Aged 65 & Older
- Aged 17 & Younger
- Civilian with a Disability
- Single-Parent Households
- English Language Proficiency

## Highest SVI Measures

Census Tract	Total Population	Area (Sq. miles)	Household Characteristics Vulnerability Index
Census Tract 5.02	1822	0.0731	0.9996
Census Tract 29	4131	0.1428	0.9975
Census Tract 2.05	3252	0.0688	0.9922
Census Tract 93	3630	0.2145	0.9886
Census Tract 10	2111	0.0791	0.9867

# Racial & Ethnic Minority Vulnerability

## Racial & Ethnic Minority Vulnerability Measurements

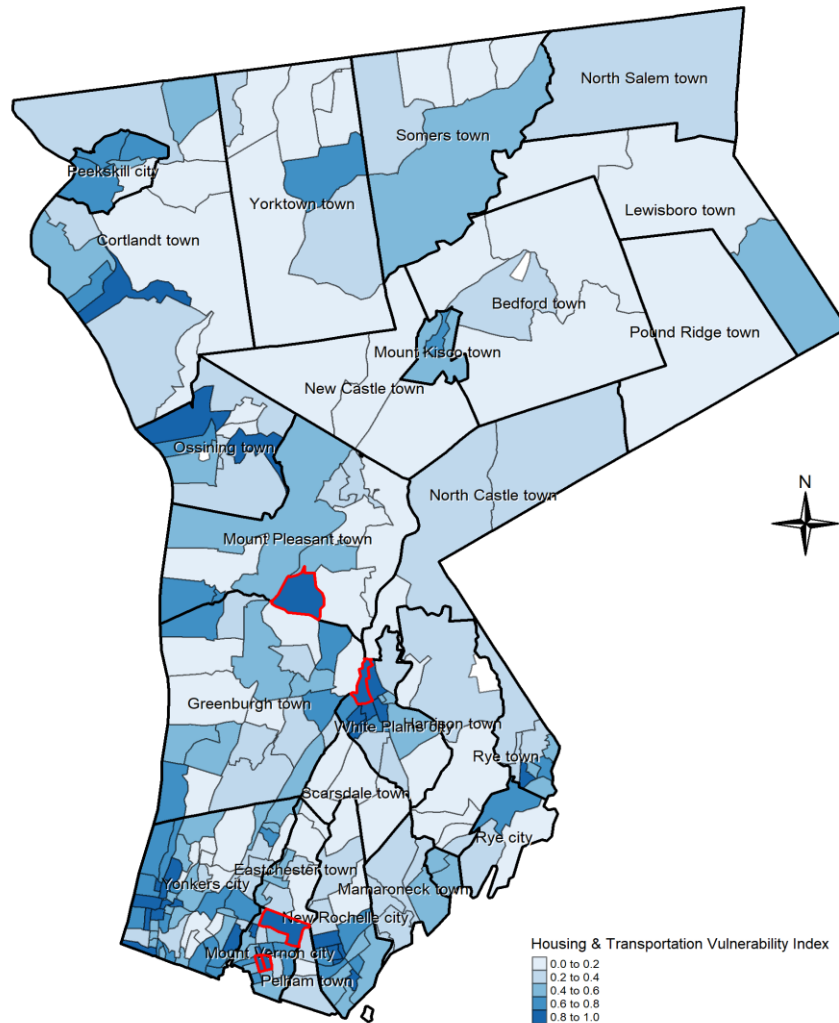

- Hispanic or Latino regardless of race
- Non-Hispanic ethnicity that are either Black or African American
- Asian
- American Indian or Alaskan Native
- Native Hawaiian or Pacific Islander
- Two or More Races, Other Races

## Highest SVI Measures

Census Tract	Total Population	Area (Sq. miles)	Racial & Ethnic Minority Vulnerability Index
Census Tract 31	3048	0.1116	0.9840
Census Tract 27	5074	0.1326	0.9840
Census Tract 29	4131	0.1428	0.9770
Census Tract 33	3249	0.2411	0.9734
Census Tract 28	2531	0.1072	0.9466

# Housing Type and Transportation Vulnerability

## Housing Type & Transportation Vulnerability Measurements

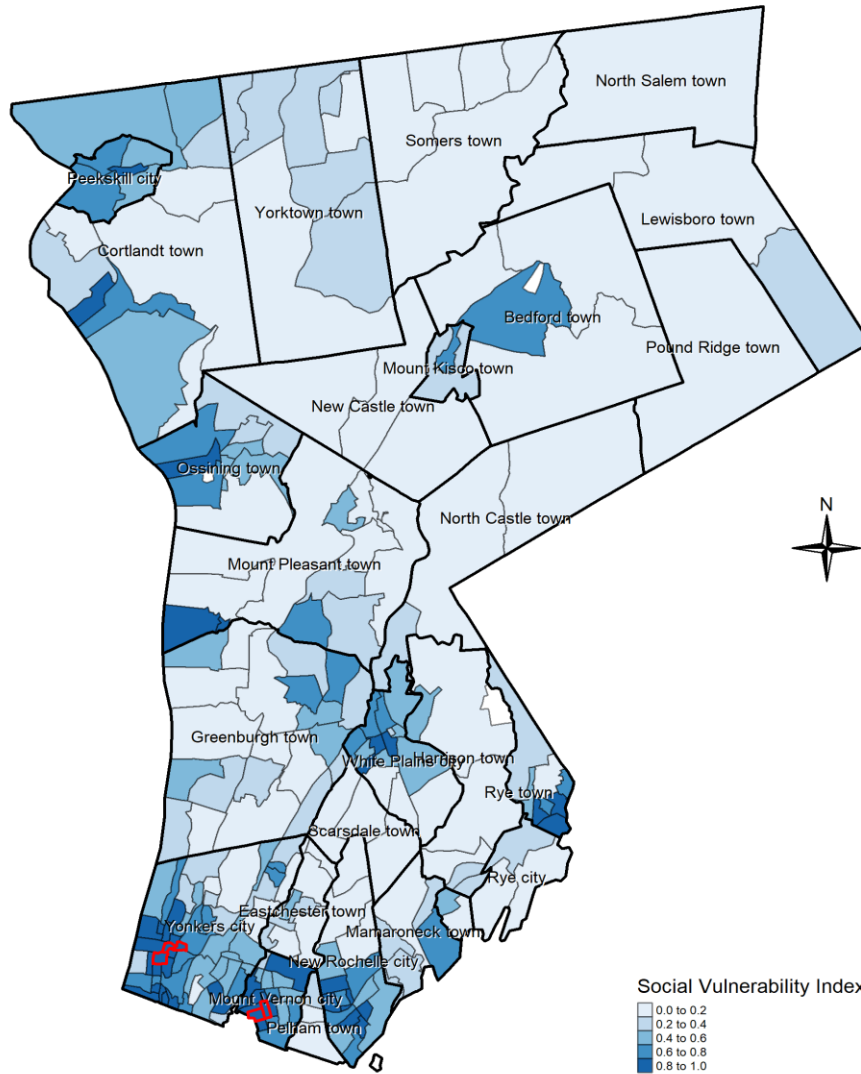

- Living in multi-unit structures (apartments)
- Living in mobile homes
- Living in crowded households (more than one person per room)
- Living with no vehicles
- Living in group quarters (institutions, nursing homes, dormitories, correctional facilities, etc.)

## Highest SVI Measures

Census Tract	Total Population	Area (Sq. miles)	Housing Type & Transportation Vulnerability Index
Census Tract 32	3098	0.1137	0.9913
Census Tract 90	4287	0.4769	0.9745
Census Tract 151	5049	0.8932	0.9635
Census Tract 9810	1784	1.6290	0.9200
Census Tract 31	3048	0.1116	0.9190

# Overall Social Vulnerability

Overall Social Vulnerability based on the four themes:

- Socioeconomic Status
- Household Characteristics
- Racial and Ethnic Minority Status
- Housing and Transportation

## Overall SVI Measures

Census Tract	Total Population	Area (Sq. miles)	Overall Social Vulnerability Index
Census Tract 10	2111	0.0791	0.9856
Census Tract 3	4021	0.1490	0.9810
Census Tract 5.02	1822	0.0731	0.9686
Census Tract 31	3048	0.1116	0.9633
Census Tract 29	4131	0.1428	0.9593
