Fast facts regarding COVID-19 (Novel Coronavirus)

- Westchester has travelers coming back to the county from areas of the world where COVID-19 cases have occurred
- The Westchester County Health Department is currently monitoring is 26 individuals
- These people are all quarantined – this is a voluntary quarantine most are in their homes
 - Isolation is when you are sick
 - Quarantine is when you are exposed to illness
- ***THERE IS NO REASON TO BE ALARMED* THERE NO THREAT TO PUBLIC SAFETY***
- Westchester County Health Department is following CDC and New York State Department of Health protocol
- The Westchester County Health Department, with County Emergency Services, and County Public Safety are assisting ALL of these people
- The County Health Department is making sure these people have food and medication – whatever they need during the time of quarantine
- Health has the ability to video conference with all of them – using smart phones
- Health is in constant communication with these people – they can call the Department of Health at any time
- Should they become ill or need to be transported Public Safety and Emergency Services would oversee that and make sure the right equipment is being used

- The Department of Emergency Services has sent correspondence to all of our Fire and EMS agencies with the latest guidance from the NYS Health Department and CDC on response to potential novel coronavirus patients.
 - Local first response agencies provide training and personal protective equipment to their own personnel.
 - The Department of Emergency Services stands ready to provide any supplemental training, supplies and guidance as may be needed to support preparations in partnership with the County Health Department.
 - A professional EMS has been contracted for backup – if needed

WHAT YOU CAN DO TO STAY SAFE:

- Do what you would do to protect yourself from the flu
- Wash hands – stay away from sick people who are coughing or sneezing
- Clean with bleach – no green products
- Cover your mouth when you cough or sneeze
- The US Government is telling people not to go to China
- Get your flu shot

About Westchester County

Westchester County, located in the heart of the historic Hudson Valley, covers 500 square miles and has a population of just under a million. Originally home to Native Americans, who were members of the Lenape tribe, it is today a rich mix of many cultures and landscapes. The County is a blend of bustling cities, quaint villages and picturesque towns as well as open spaces and a network of beautiful parks. Westchester is made up of 6 cities, 19 towns and 20 villages. Westchester County is known for top-notch public schools, and a high quality of life. The County is also an intellectual capital, boasting a highly educated workforce, competitive colleges and universities, Fortune 500 companies, world changing non-profits, and cutting-edge research centers. Westchester is led by County Executive George Latimer, who took office in January 2018 as the ninth County Executive. Using inclusion and openness as a foreground, Latimer is fighting to make Westchester a destination for all people to live, work and enjoy.
