SECOND POSITIVE WEST NILE VIRUS CASE IN WESTCHESTER IN 2021

County Health Department Reminds Residents to Take Precautions Against Mosquitoes

(White Plains, NY) – Westchester County has learned of its second human case of West Nile Virus this year, which was confirmed in a 66-year-old resident with underlying medical conditions, who is hospitalized.

Health Commissioner Sherlita Amler, MD, said, “This second case of West Nile Virus should serve as a reminder for all of us to take precautions against mosquito bites by removing standing water from our property and using repellents when we spend time outdoors, especially from dusk to dawn, when mosquitoes are most active.”

West Nile Virus infection most often causes a mild or moderate flu-like illness, but can be more serious, particularly for people 60 and older, and those with other health complications. Last year,

three people were diagnosed with West Nile Virus, and in 2019, one Westchester County resident had the virus.

The Westchester County Department of Health has inspected the area around the resident's home for potential mosquito breeding sites, and has evaluated nearby catch basins in the area and treated those with larvicide as needed.

Residents should inspect their property and remove any standing water to prevent mosquitoes from breeding. Residents who notice large areas of standing water on public property should report them to the Westchester County Department of Health at (914) 813-5000

Throughout the season, the Westchester County Health Department traps and tests mosquitoes to track the presence of mosquito-borne viruses. For more ideas on how to reduce the mosquito population near your home, go to <https://health.westchestergov.com/west-nile-virus>.

About Westchester County

Westchester County, located in the heart of the historic Hudson Valley, covers 500 square miles and has a population of just over one million. Originally home to Native Americans, who were members of the Lenape tribe, it is today a rich mix of many cultures and landscapes. The County is a blend of bustling cities, quaint villages and picturesque towns as well as open spaces and a network of beautiful parks. Westchester is made up of 6 cities, 19 towns and 20 villages. Westchester County is known for top-notch public schools, and a high quality of life. The County is also an intellectual capital, boasting a highly educated workforce, competitive colleges and universities, Fortune 500 companies, world changing non-profits, and cutting-edge research centers. Westchester is led by County Executive George Latimer, who took office in January 2018 as the ninth County Executive. Using inclusion and openness as a foreground, Latimer is fighting to make Westchester a destination for all people to live, work and enjoy.
