BEACH CLOSURE NOTIFICATION DUE TO ELEVATED BACTERIA LEVELS

The Westchester County Health Department has closed the following beach until further notice following the collection of water samples on July 8 and July 10, which exceeded the bacteria level allowed by New York State.

- **Hudson Park East Beach, New Rochelle**

The County will be resampling this beach. Additionally, the two beaches previously closed earlier this week due to algae on Mohegan Lake remain closed. Affected Beaches:

- **Mohegan Colony Association – Mohegan Lake**
- **Mohegan Beach Park District – Mohegan Lake**

Residents and visitors are encouraged to visit the Westchester County website for the latest updates on beach closures and reopening schedules. The County remains committed to maintaining high standards of environmental health and safety across its recreational facilities.
