WESTCHESTER COUNTY DEPARTMENT OF HEALTH COMPREHENSIVE ON SITE WASTEWATER TREATMENT SYSTEM (OWTS) REMEDIATION PLAN CHECKLIST

This checklist is provided to assist both you and the health department technical staff expedite the processing of your remediation approval application.

PLEASE READ THIS CAREFULLY.

All items must be included and checked off as completed. The completed and signed checklist must accompany all OWTS remediation construction approval and OWTS remediation construction compliance applications.

COMPREHENSIVE ON-SITE WASTEWATER TREATMENT SYSTEM REMEDIATION PLAN FILING REQUIREMENTS:

Applicable codes: Chapter 873, Article VII and VIII of the Laws of Westchester County, NY

Fees: Chapter 873, Article XXI, Sections 873.2111, 873.2112, 873.2113 of the Laws of Westchester County, NY and Policy Statement Env 1992-1 revised January 1998, July 2019.

A licensed Professional Engineer or Registered Architect licensed and registered to practice in the State of New York and experienced in onsite wastewater treatment systems must prepare all applications. A Westchester County Licensed Septic System Contractor may prepare applications only in cases as defined in the Onsite Wastewater Treatment System (OWTS) Remediations and Repairs Rules and Regulations effective November 7, 2008.

Application Fee: For Residential: \$500.00 per onsite wastewater treatment system (a.k.a. OWTS)

For Commercial: \$40.00 per 100 gallons of design flow Minimum: \$670.00 and Maximum: \$4160.00

Check should be made out to the Westchester County Department of Health.

A completed Westchester County Department of Health (WCDH) Application for remediation construction approval* or certificate of OWTS remediation construction compliance*, as appropriate is required.

A project report which includes detailed description of project including design parameters and support documents (remediation approval).

Letter of Authorization* (authorizes Professional Engineer (PE) or Registered Architect (RA) or, if applicable a licensed Westchester County Septic System Contractor to file on behalf of owner) must be submitted and bear the original signature of both owner and design professional or licensed septic system contractor.

For Corporate ownership, a Corporate Resolution form* must be filed authorizing person within corporation to sign application/documents on behalf of the corporation.

Five sets of comprehensive site plans are required. Plans must be drawn in ink and in commonly recognized scale.

*Forms can be downloaded from the department's website:

(http://www.westchestergov.com/health/Realty.htm#forms)

REFERENCES/SOURCES TO ASSIST IN THE PREPARATION OF THE ON SITE WASTEWATER TREATMENT SYSTEM REMEDIATION PLAN APPLICATION:

For the design of residential OWTS refer to Rules and Regulations for the Design and Construction of Residential Subsurface Sewage Treatment Systems and Drilled Wells in Westchester County NY (<u>www.westchestergov.com/health/realty.htm#forms</u>)

For the design of commercial OWTS refer to NYSDEC Design Standards for Wastewater Treatment Systems 2014 or latest addition http://www.dec.state.ny.us/website/dow/standards.pdf)

WCHD USE	<u>Applicant</u>	
		Site plan showing 2 foot contours and all watercourses, wet weather drainage channels, NYSDEC or locally regulated wetlands, springs on the property or within 100' of any property lines, existing or proposed easements.
		Complete layout of proposed onsite wastewater treatment system including curtain drains, roof and footing drains, fill, driveways, existing and proposed grading lines, etc. including but not limited to:
		Exact location and layout of the existing and proposed OWTS, septic tank, pump tank, overflow tank, dosing chamber.
		Absorption trench lines
		Leaching/Seepage Pits
		Slope within the OWTS remediation area
		Distribution system, i.e., junction boxes, distribution boxes
		OWTS layout and location
		Accurate location of all soil testing done on the property with numbering to correspond with testing witnessed by WCDOH
		All existing wells and onsite wastewater treatment systems on the property and on adjacent properties within 200 feet of the property line or a note there are no existing or WCDH approved well located within 200 feet of proposed remediation OWTS
		Show the location, width, slope, surfacing, and curve radius of all existing and proposed driveways.
		Location of all soil percolation and deep test holes must be shown.
		Profile view of the proposed OWTS remediation area including, all elevations, slope, depth to ledge rock, groundwater, etc.
		Design details, where appropriate, for example, septic tank, junction box, distribution box, absorption trench, pump chamber, dosing chamber, siphon chambers, seepage pit, curtain drain, overflow tank, run of bank fill and well. For pump or dosing systems, provide calculations to support sizing of the pump and required dose volume (gallons).
		Design data information: design flow, linear feet, septic tank size (gallons), soil percolation rate, number of bedrooms, fill, curtain drain, slope, etc.
		Soil Classification information
		Locate propane tank (if applicable) with any approved setback to structures and property lines
		Locate power and electric lines (overhead and below ground)
		Locate water lines

Notes required on plans: (Illustrative examples):

WCHD USE	<u>Applicant</u>	
		There shall be no trees within 10 feet of the OWTS.
		There are no wells within 200' of OWTS unless otherwise shown on plan.
		The proposed OWTS remediation area shall be isolated and protected against damage by erosion, storage of earth or materials, displacement, compaction or other adverse physical change in the characteristics of the soil or in the drainage of the area.
		If for any reason the approved construction plan cannot be followed, a revised plan must be prepared, submitted, and approved by WCDH.
		The design professional shall supervise the construction of the OWTS and make an open works inspection

		Within 24-hours of the completion of the OWTS, the design professional must notify the Westchester County Department of Health (WCDH) that the OWTS is ready for inspection by submitting a completed request for an open works inspection on the appropriate form to WCDH.	
		That no backfilling of a completed OWTS can occur until after it has been inspected and accepted by the Westchester County Department of Health.	
		After backfilling the OWTS, the area shall be covered with a minimum of 4 inches of clean top soil, seeded and mulched.	
		All pipes connecting to tank and boxes shall be cut flush with the inside wall of box.	
		The proposed OWTS remediation work shall be installed by a Westchester County licensed septic system contractor.	
		Prior to any excavation all underground utilities must be located. Call 1-800-962-7962.	
		The Westchester County Health Department approval expires one year from the date on the approval stamp and is required to be renewed on or before the expiration date. The approval is revocable for cause or may be amended or modified when considered necessary by the department.	
Initials			
For propertie	es located in N	NYC Watershed, the following information is needed:	
WCHD	<u>Applicant</u>		
<u>USE</u> □		There are no reservoirs, reservoir stems or controlled lake within 500 feet of the proposed OWTS unless otherwise shown on plan.	
		There are no NYSDEC wetlands or watercourses within 200 feet of the proposed OWTS unless otherwise shown on plan.	
		NYCDEP must be contacted at least two days prior to start of construction of the OWTS so that the NYCDEP may inspect and monitor the installation.
